## LETTER OF TRANSMITTAL

JANUARY 3, 1942.

To the PRESIDENT OF THE SENATE AND THE SPEAKER OF THE HOUSE  
OF REPRESENTATIVES OF THE SEVENTY-SEVENTH CONGRESS:

Pursuant to the provisions of section 6 (c) of the act of July 3, 1930 (Public, No. 536, 71st Cong.), I have the honor to submit herewith report of activities of the Veterans' Administration as of June 30, 1941.

Supplementing the text, which contains a summary of new legislation as well as a report by activity of the relief rendered to veterans and their dependents, are statistical tables which permit following the trend of these benefits.

Respectfully,

FRANK T. HINES, *Administrator.*

III

## LETTER OF TRANSMITTAL

To the President of the United States and the members of the House of Representatives of the United States of America:

I have the honor to acknowledge the receipt of your letter of the 10th inst., in relation to the proposed legislation for the relief of the estate of the late John D. Rockefeller, deceased, and to inform you that the same has been forwarded to the proper authorities for their consideration.

I am, Sir, very respectfully,  
Your obedient servant,  
John D. Rockefeller

John D. Rockefeller

### LIST OF TABLES FOR THE ANNUAL REPORT, FISCAL YEAR 1941

#### MEDICAL AND DOMICILIARY TABLES

Table	Page
1. Clinical laboratory tests and X-ray examinations, fiscal years 1924-41.....	39
2. Out-patient medical service, by service rendered, fiscal years 1924-41.....	39
3. Number of out-patient treatments divided into medical and dental, salary and fee, with percent of fee, fiscal years 1924-41.....	40
4. Number of out-patient examinations divided into medical and dental, salary and fee, with percent of fee, fiscal years 1924-41.....	40
5. Admissions of United States veterans for hospital treatment and domiciliary care, fiscal years 1920-41.....	40
6. Patients admitted for hospital treatment or domiciliary care during fiscal year 1941, by class of beneficiary, groups of hospitals, and type of patient.....	41
7. Domiciliary and hospital admissions of United States veterans by branch of service, type of patient, sex, and color, fiscal year 1941.....	42
8. Beneficiaries remaining under hospital treatment or domiciliary care June 30, 1941, by class of beneficiary, groups of hospitals, and type of patient.....	43
9. United States veterans remaining under hospital treatment or domiciliary care, June 30, 1941, by State location of facility or hospital and veterans' reported State of residence.....	44
10. United States veterans remaining under hospital treatment or domiciliary care, by sex and color, at end of each fiscal year 1919-41.....	48
11. United States veterans remaining under hospital treatment at the end of each fiscal year, by type of disease, showing those hospitalized for service-connected and non-service-connected disabilities, 1919-41.....	49
12. Domiciliary and hospital discharges of United States veterans, showing results of hospital treatment, and type of patient, fiscal year 1941.....	50

Table	PENSION AND COMEENSATION TABLES	Page
13.	Number of living veterans who were receiving monetary benefits, and the number of deceased veterans whose dependents were receiving monetary benefits, by wars, at the end of each fiscal year and amounts disbursed for these benefits 1910-41.....	51
14.	Statement showing the average annual value of monetary benefits, exclusive of insurance and adjusted compensation, by wars, and regular establishment, at the end of each fiscal year 1910-41.....	55
15.	Statement showing, by wars and regular establishment, and by public and special acts, the number of living veterans who were receiving monetary benefits, the number of deceased veterans whose dependents were receiving monetary benefits, and the aggregate annual value of these benefits on June 30, 1941 (exclusive of insurance and adjusted compensation).....	57
16.	World War compensation—Service-connected active disability awards; comparative analysis of type of major disability, by extent of disability at the end of each fiscal year 1923-41.....	58
17.	World War compensation—Service-connected active disability awards; extent of disability and degree of impairment correlated with classification of major disability showing number of disabled veterans and monthly value of awards, as of June 30, 1941.....	61
18.	World War compensation—Service-connected active disability awards; number of disabled veterans rated on a temporary basis, showing those receiving additional compensation for dependents, and number of dependents, as of June 30, 1941.....	64
19.	World War veterans receiving pensions for non-service-connected disabilities classified by type of major disability, as of June 30, 1941.....	64
20.	World War and Regular Establishment veterans and dependents of deceased veterans receiving compensation or pension benefits, showing number of cases on which insurance payments are also being made as of June 30, 1941.....	64
21.	Spanish-American War veterans receiving pensions for service-connected disabilities, showing type of major disability and degree of impairment, as of June 30, 1941.....	65
22.	Spanish-American War veterans receiving pensions for non-service-connected disabilities as of June 30, 1941.....	66
23.	Regular Establishment service-connected active disability pension awards, degree of impairment correlated with classification of major disability, showing number of disabled veterans and monthly value of awards, as of June 30, 1941.....	67
24.	Age groups of World War, Spanish-American War, and Regular Establishment veterans in receipt of compensation and pension benefits, as of June 30, 1941.....	69
25.	Terminations of compensation or pension disability awards, showing reasons for terminations during fiscal year 1941.....	69
26.	World War compensation, service- and non-service-connected active death awards; number of deceased veterans whose dependents are receiving compensation, showing class of beneficiary and number of dependents, as of June 30, 1941.....	70
27.	World War compensation, service- and non-service-connected active death awards; number of deceased veterans whose dependents were receiving compensation, showing number of dependents as of the end of each fiscal year 1923-41.....	70
28.	Spanish-American War pensions—Service- and non-service-connected active death awards; number of deceased veterans whose dependents are receiving pensions, showing class of beneficiary and number of dependents, as of June 30, 1941.....	71
29.	Regular Establishment pensions, active death awards; number of deceased veterans whose dependents are receiving pensions, showing class of beneficiary and number of dependents, as of June 30, 1941.....	71
30.	Terminations of compensation or pension death awards, showing reasons for terminations during fiscal year 1941.....	72
RETIREMENT OF EMERGENCY, PROVISIONAL, PROBATIONAL, OR TEMPORARY OFFICERS' TABLE		
31.	Emergency, provisional, probational, or temporary officers of the World War entitled to retirement pay as of June 30, 1941, classified by organization and rank.....	73

VII

## ADJUSTED-COMPENSATION TABLES

Table	Page
32. Number of applications for adjusted compensation received by fiscal years from September 1924, to June 30, 1941.....	74
33. Action taken on applications for adjusted compensation to June 30, 1941.....	74
34. Dependency death claims awarded on account of adjusted compensation, showing beneficiary as of June 30, 1941.....	74

## INSURANCE TABLES

35. Number of United States Government term, converted and national service life insurance claims awarded by fiscal years from October 1917, to June 30, 1941.....	75
36. Term and automatic insurance-active disability and death awards, as of June 30, 1941.....	75
37. Term and automatic insurance terminated disability and death awards as of June 30, 1941.....	75
38. Converted insurance claims awarded and terminated during the calendar year 1940, by plan of insurance.....	76
39. Report of United States Government life insurance in force December 31, 1940, total, all plans.....	78
40. Report of United States Government life insurance in force by plan as of December 31, 1940.....	78

## FINANCE TABLES

41. Analysis of reported obligations from all appropriations, by purpose, fiscal year 1941.....	78
42. Appropriations and other receipts versus disbursements to June 30, 1941.....	80
43. Disbursements made by Veterans' Administration, former Veterans' Bureau, National Home for Disabled Volunteer Soldiers, and Pension Bureau, for all wars and Regular Establishment, and annuities and refunds to civil employees under civil service and Canal Zone Retirement Acts.....	82
44. An approximate distribution of expenditures by States during fiscal year 1941, showing the number of beneficiaries, as of June 30, 1941...	89
45. An approximate distribution of expenditures by United States possessions and foreign countries during the fiscal year 1941, showing number of beneficiaries as of June 30, 1941.....	98
46. Policy loans—United States Government life insurance fund—Summary for fiscal year 1941.....	101
47. Financial statement of the United States Government life insurance fund by calendar years from origin of fund to December 31, 1940...	102

## GUARDIANSHIP TABLES

48. Incompetent and minor wards under guardianship—June 30, 1941...	104
49. Summary of fiduciary accounts, guardians' commissions, and attorneys' fees, for fiscal year 1941.....	105

## CONSTRUCTION TABLES

50. Statement showing, by location, the hospital and domiciliary beds under the control of the Veterans' Administration at the close of the fiscal years 1940 and 1941, and the authorized or proposed development of facilities under present appropriations through the fiscal year 1943.....	107
51. Statement of the amounts expended or obligated for individual projects under appropriations for hospital and domiciliary construction from March 3, 1919, to date, together with amounts expended for betterments out of annual appropriations of the former Veterans' Bureau and the Veterans' Administration, June 30, 1941.....	110

## BOARD OF APPEALS TABLE

52. Analysis of actions taken on cases disposed of by Board of Veterans' Appeals June 29, 1940, through June 28, 1941.....	118
--	-----

The first part of the paper discusses the importance of the  
 study of the history of the United States. It is argued that  
 the study of history is essential for a full understanding  
 of the present. The second part of the paper discusses the  
 importance of the study of the history of the United States.  
 It is argued that the study of history is essential for a  
 full understanding of the present. The third part of the  
 paper discusses the importance of the study of the history  
 of the United States. It is argued that the study of history  
 is essential for a full understanding of the present. The  
 fourth part of the paper discusses the importance of the  
 study of the history of the United States. It is argued that  
 the study of history is essential for a full understanding  
 of the present. The fifth part of the paper discusses the  
 importance of the study of the history of the United States.  
 It is argued that the study of history is essential for a  
 full understanding of the present. The sixth part of the  
 paper discusses the importance of the study of the history  
 of the United States. It is argued that the study of history  
 is essential for a full understanding of the present. The  
 seventh part of the paper discusses the importance of the  
 study of the history of the United States. It is argued that  
 the study of history is essential for a full understanding  
 of the present. The eighth part of the paper discusses the  
 importance of the study of the history of the United States.  
 It is argued that the study of history is essential for a  
 full understanding of the present. The ninth part of the  
 paper discusses the importance of the study of the history  
 of the United States. It is argued that the study of history  
 is essential for a full understanding of the present. The  
 tenth part of the paper discusses the importance of the  
 study of the history of the United States. It is argued that  
 the study of history is essential for a full understanding  
 of the present.

# ANNUAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 1941

---

## INTRODUCTION

The Veterans' Administration, schooled in its relatively fixed peace time responsibilities, experienced during the past year, as did other agencies of the government and citizens at large, the impact of the National Defense program. Effectively it geared itself to meet greatly increased duties. The future potential requirements in its several fields of activity were subject to studied appraisal to the end that plans would be devised to solve expeditiously whatever problems might arise, and concurrently to assure no diminution in the quality of service in behalf of all veterans.

During October 1940, with the passage of Public Acts No. 801 and 861, the Veterans' Administration was faced with the immediate task of organizing to handle applications for National Service Life Insurance from those in the active service of our land and naval forces, including persons selected for training and service under the Selective Training and Service Act of 1940, and to fulfill the Government's guarantee of payment of certain premiums on insurance issued by commercial insurers while the insured is on active military or naval duty. Through October 1941, more than 662,000 applications for National Service Life Insurance had been received representing approximately \$2,285,000,000 of insurance. The extent of the administrative task involved in the consideration of these applications is indicated by the fact that during the month of March 1941, alone, 132,907 applications for insurance were received. Necessarily, the Insurance and Finance Services of the Veterans' Administration were immediately expanded to meet these demands, new personnel trained, and the work organized to flow smoothly and promptly.

With the rapid growth of the defense forces, it was necessary to anticipate the problem of claims to be received, not only for insurance under the National Service Life Insurance Act of 1940, but also for pension by those veterans disabled in service, and by their dependents where the veteran has died in service or died from a disability resulting from service.

With emphasis placed on mechanized forces together with the enlargement of the air force, it may well be expected that numerically a considerable number of accidental injuries and deaths will accompany our military training program. Too, there is a certain percentage of men in military and naval training who will suffer from disease, with resultant disabilities and death, and these men in turn are entitled to those pension benefits, as are their dependents, to which hitherto under present laws have been the members of our armed forces serving other than in time of war. While during the year the volume of such claims was not great, progressively it may be expected that this

volume will increase and become an important factor in the adjudicative work load. The Veterans' Administration will determine these cases promptly, as an essential contribution to National Defense.

In the field of medical activities and hospitalization, the preparations for National Defense have been aided through the application of the experience of the Veterans' Administration, its facilities and its physicians and technicians. But on the other hand this same program has created problems of administration which have required intensive study and application to solve.

Considerable inroads have been made upon the personnel of the Veterans' Administration to meet the needs of the armed forces. This drain, while especially affecting physicians and dentists, has been felt also in relation to other types of personnel engaged in medical activities. The turnover in hospital ward and mess attendants has been much accelerated, not only because of military necessities proper, but because opportunities for better wages are offered through industrial expansion over the country.

In regard to physicians, dentists, and other medical personnel who were members of the National Guard called into Federal service, and employees who were registrants under the Selective Training and Service Act, no intervention by the Veterans' Administration was attempted. There were comparatively few employees in the first of these groups; and it was felt that in respect to registrants, the local boards of the Selective Service System would carefully consider deferment of military service in view of the necessary nature of the duties of the registrants for the Veterans' Administration. But as to the large number of Reservists of the Army and Navy it was thought necessary to effect such ordered control of their releases as would not seriously cripple the continuance of the medical activities of the Veterans' Administration. A plan was worked out whereby key personnel in the positions of physicians, dentists and laboratorians would be considered for release for extended military service upon receipt of requests from the Surgeon General, War Department. These requests, originating in the corps area headquarters to which such personnel was assigned, were to be relayed to the Adjutant General, who would refer them to the Surgeon General, to be taken up with the Medical Director, Veterans' Administration. If the Medical Director consented to release of the Reservist, he was to be informed if the Reservist successfully passed the physical examination preliminary to his proposed appointment. If so, the Medical Director was to appoint a date, 30 days after such notice, when the released Reservist would be subject to military orders, and would arrange a replacement at the field station concerned. While it has been at times inconvenient to release trained employees who could not be held to be occupying key positions, this agreement has been reasonably satisfactory for both parties to it. The Veterans' Administration has been willing to accept inconvenience in view of the necessities of the War Department, which has been equally considerate and understanding of the needs of the Veterans' Administration. For so long as the Veterans' Administration can select professional and sub-professional personnel of the requisite education and experience to fill vacated positions, the situation can probably be fairly well controlled. Some apprehension is felt, however, because of the heavy demand for professional personnel that is coming from other Federal agencies as well as the Veterans' Administration.

Psychiatrists of the Veterans' Administration, stationed at points where physicians in that specialty are few or wholly lacking, were granted authority to serve as members of the advisory boards of the Selective Service System; and, in the western part of New York, arrangements were made to have psychiatrists of the Veterans' Administration work as medical examiners of local boards. Physicians of the medical and hospital service, central office, served as members of an advisory board, convened at the headquarters, Selective Service System, to prepare instructions for physicians attached to local boards over the country, pertaining to the psychiatric examinations of registrants. In one or two instances, psychiatrists of the Veterans' Administration were authorized to serve at Army induction stations. Psychiatrists of the Veterans' Administration were participants in a program of educational seminars, for members of the advisory boards of the Selective Service System and examiners at induction stations of the Army, which were held in several large cities throughout the country.

The purpose of these educational seminars and of other cooperation lent by the Veterans' Administration was to emphasize the necessity for careful examination of registrants for selective military training who were suspected of disorders of the nervous system. The heavy burden of costs for monetary benefits and for hospitalization by the Veterans' Administration that was imposed through the hurried acceptance for military service in the World War of men suffering from gross defects, strongly suggests the wisdom of profiting by that experience.

Physicians of the medical and hospital service, central office, at the request of the Division of Medical Sciences, National Research Council, attended meetings of various committees on hospitalization—psychiatry, neurology, historical records, etc.—handling problems related to national defense.

The clinical and laboratory resources of the Veterans' Administration were extensively used by the armed forces during the year, particularly for X-ray examinations and electrocardiographic tracings with interpretations. Pending completion of camp hospitals, beds in neighboring facilities of the Veterans' Administration were used for ill or injured soldiers; and at two field stations—Kecoughtan, Va., and Ft. Custer, Mich.—entire wards were allocated to Army patients.

*New hospital and domiciliary construction.*—There were two appropriations for new construction during this year—one of \$3,500,000 contained in Public, No. 28, Seventy-seventh Congress, approved April 5, 1941, and the other of \$1,000,000 contained in Public Law No. 73, Seventy-seventh Congress, approved May 24, 1941. The first of these appropriations was obtained to provide \$2,000,000 for the erection of a 300 bed general facility in the Massachusetts-Rhode Island area and 164 additional N. P. beds at Canandaigua, N. Y., and \$1,500,000 for major betterments at existing facilities. The other appropriation of \$1,000,000 was obtained to permit the erection of a warehouse at Hines, Ill., to house the Supply Depot of this Administration now occupying rented space in Chicago. The construction involving additional beds follows the 10 year program included in the report of the Federal Board of Hospitalization on the future institutional needs of this Administration, the objectives of which the President approved in principle on May 8, 1940. [The original 10 year program consists principally of projects providing additional beds for

mental patients and for the furnishing of domiciliary care, and upon completion will make available a total of 100,000 beds of all types. However, it should be mentioned that this program was prepared prior to legislation greatly expanding the military forces and that amendments thereto may be necessary from time to time as the result of the withdrawal of beds now used by this Administration in service hospitals. There is also the possibility that the program will have to be accelerated to meet the additional load expected from peace-time veterans who if discharged for disabilities incurred in line of duty are eligible for care and treatment by this administration.

*Improved service in the medical care of beneficiaries.*—During this year emphasis continued to be placed upon surgical intervention in the treatment of pulmonary tuberculosis and a new chest surgery center was established in the facility at Livermore, Calif., supplementing those already in operation at Castle Point, N. Y., Oteen, N. C., Legion, Tex., Tucson, Ariz., and San Fernando, Calif. However ideal results cannot be expected through utilization of surgical measures since the majority of patients are in an age group that is too old for employment of the more radical types of such intervention. Nevertheless, the relative percentage of discharges of beneficiaries who have attained arrest of pulmonary tuberculosis compares favorably with the results obtained in State, municipal, and private sanatoria. This is attributable not only to a superior type of care and treatment, including an especially high type dietary, but to the opportunity to receive extended hospitalization without cost. As regards neuropsychiatric disorders, the treatment of the disease popularly known as paresis, or general paralysis of the insane, from which death had been practicable inevitable in from 2 to 3 years after onset, has been notably influenced by hyperpyrexia therapy, induced by malaria inoculation or by diathermy, etc. Patients who had been suffering from this dread disease have, by such treatment, been restored to social and industrial life in their communities; while others, though not so much benefited that they were able to reach that level of rehabilitation, have been improved to the point where they have made a good intramural adjustment and require only a minimum of care and supervision. Similarly, schizophrenia (dementia precox), the mental disorder which is responsible for most admissions to hospitals for the mentally ill throughout this and other countries, and which had been characterized by a tendency to chronicity and dementia, has been successfully attacked by treatments such as the hypoglycemia (insulin) shock therapy introduced by Sakel, and by metrazol treatment. These measures, however, have yielded the best results in younger patients whose mental disorder is fairly recent. In older patients, whose symptoms have lasted for longer periods, the benefits have not been so marked. Consequently, since these "shock" treatments are rather drastic and require the most careful technique and supervision, the present trend is toward conservation in their use in such older patients.

Other treatment measures of demonstrated value for mentally ill patients, such as occupational therapy, recreational activities and "habit-training" for badly deteriorated patients, are intensively applied. The development of occupational therapy by the Veterans' Administration has been exceptional. The aim is to provide such variety of projects, outdoors or indoors, as will make it possible to assign all psychotic patients, except those whose physical condition

interdicts, to some activity that will capture his interest and divert him from introspection and severance from the world of realities.

Each year witnesses wider utilization of physiotherapy by the Veterans' Administration. This term comprehends treatment by massage, physical exercise or remedial gymnastics, and by water, heat, sunlight and artificial light and electric currents.

A large variety of ingenious apparatus has been marketed during recent years for administration of these various types of physiotherapy, and the Veterans' Administration has made extensive installations of the most approved and modern types of such equipment. For the widely prevalent and increasing disorders of the blood vessels, such mechanical measures as the suction-pressure boot, and vasocillator bed, and the intermittent venous occlusion method are employed. The increasingly favored short-wave diathermy apparatus (for "fever therapy" in organic brain disorders, arthritis, etc.) has been supplied 64 of the 93 physiotherapy clinics, to replace demoded equipment.

A fever-therapy clinic is being organized at Northport, L. I., N. Y., with especial installations of diathermy equipment, to supply high-temperature treatments for the mentally ill patients in that hospital, and to provide a training center for physicians and nurses from other hospitals, who will be sent to that clinic for instruction and subsequent return to their assigned stations. One of the installations at Northport is a new type cabinet which utilizes nebulized hot water to induce fever; a cold spray is used for the comfort of the patient while he is taking this hyperpyrexia treatment.

The research problem relative to the use of miniature X-ray films in mass radiography, which has been conducted with the cooperation of the staff of the Northport, L. I., N. Y., facility, has been further developed during the past fiscal year and is in full operation at this time. There is also being investigated in the roentgenological unit of the Northport facility, the use of sensitized paper negatives rather than the use of 14 by 17 negatives wherever possible, in the taking of X-rays, as a possible means of effecting economy.

*Civilian Conservation Corps activities.*—Throughout the fiscal year ending June 30, 1941, the Veterans' Administration continued its program of cooperation with the Director of the Civilian Conservation Corps in harmony with the principles established during previous years for its participation in this program under the provisions of the Civilian Conservation Corps Act as amended and the Executive Order of the President designating the Veterans' Administration as a cooperating agency.

The primary functions of the Veterans' Administration in its relationship to the Civilian Conservation Corps work have been to determine the eligibility of applicants for membership in the veterans' contingent, to select from the eligible applicants the requisite number to maintain the authorized quota at full strength, and to certify such selectees to the War Department for physical examination and enrollment. This work has been accomplished by some 53 field activities of the Veterans' Administration located in the several States and the District of Columbia. Those field activities have performed the required functions under the general direction and supervision of the office of the Administrator of Veterans' Affairs.

The total authorized strength of the veterans' contingent of the Civilian Conservation Corps at the close of the fiscal year was 27,200

which represented approximately 9 percent of the corps strength. At the close of the fiscal year ending June 30, 1940, there were 20,201 veterans in enrollment status. During the months of July, October, January, April, and May of the fiscal year 18,228 veterans were enrolled to fill vacancies occurring as a result of discharges. On April 9, 1941, the assistant director of the corps authorized intermediate enrollments for veterans, thus making eight enrollment opportunities within the fiscal year instead of the quarterly enrollments previously in effect. During the latter part of the fiscal year there was a decrease in the number of applications received from veterans for enrollment in the Corps. It is reasonably evident that this was the result of the expansion of employment opportunities in private industry as a result of the development of the National Defense Program. The enrollment strength at the close of the year was approximately 20,000.

Since the spring of 1933 when the first veterans were enrolled in the corps there have been approximately 213,000 veteran enrollments. The total number of veterans and their dependents who have received direct monetary benefits through allotments has now reached some 550,000.

The Civilian Conservation Corps is continuing to fulfill the two primary purposes for which it was organized, namely, the conservation of our national resources and the provision of employment and training opportunities for the unemployed who are unable to obtain employment in private industry. The opportunities offered by the Corps to the unemployed veteran have been outstanding and of material economic and social value to him and his dependents.

*Employment activities generally.*—The Veterans' Administration during the fiscal year has continued to extend its cooperation to the United States Employment Service of the Social Security Board and other Government agencies and to recognized veterans organizations in an effort to assist veterans in obtaining employment. This cooperation has been extended through the field offices of the Veterans' Administration. The results obtained during the fiscal year just closed have been outstanding. The reports of the United States Employment Service show that as of June 30, 1940, there were 239,872 veterans registered for employment with the various State employment agencies. The corresponding figure for June 30, 1941, was 212,984.

The indications are that the unemployed veterans materially benefited by the improved industrial conditions which took place during the fiscal year as a result of increased employment opportunities incident to the development of the National Defense Program. While unemployment amongst veterans has been substantially relieved, especially amongst the more skilled workmen, the entire problem has not as yet been solved. There is yet a necessity for the continuation of the constructive program which has been instrumental in bringing about the favorable results thus far registered. Developments during the past year have indicated certain rather definite trends in relieving unemployment amongst veterans, among which are: the relaxation of employers' requirements with regard to age and physical condition; the opening up of opportunities for the older workers to fill the vacancies created by those who have entered the service under the provisions of the Selective Service Act; the decrease in the number of veterans seeking employment under the civil service as a result of increased opportunities in private industry; increased wages; and the

action on the part of veterans employed in public service jobs not in harmony with their major qualifications and abilities, to return to private employment in line therewith when the opportunity is presented.

*Organization.*—While at the time of the establishment of the Veterans' Administration in July 1930, there were 47 field stations operating as separate regional offices without collateral hospital or domiciliary facilities, today there remain but 10 such offices, namely, those at Manchester, N. H.; Boston, Mass.; Providence, R. I.; Philadelphia, Pa.; Jackson, Miss.; New Orleans, La.; Denver, Colo.; Little Rock, Ark.; Sioux Falls, S. Dak.; and Seattle, Wash. The office at Boston, Mass. will be merged upon construction of the approved new facility at that point. It is expected that eventually all regional offices will have been consolidated with other field facilities. In addition, the supply activities at four regional offices have been consolidated with other field facilities. Experience continues to demonstrate that the Administration is able to give equal or better service at combined facilities, with a minimum of administrative expense, because of the extensive and better coordinated activities which are immediately available to the veteran, especially in connection with his physical examination.

Continuously throughout the year the Veterans' Administration sought to maintain the administrative cost of its operations at a minimum consistent with efficient service, appreciating the magnitude of the cost of the Nation's defense program and the consequent necessity of effecting the maximum economy in the carrying on of nondefense activities. Recognizing that there may be no curtailment in the quality of service afforded veterans of the United States, nevertheless it is incumbent upon the Veterans' Administration to dispense its services at a minimum of overhead and to organize its work and carry out its many transactions as directly and as economically as possible. Constantly every effort is put forth to shorten procedures and to eliminate nonessential activities and effort. Especially has serious study been given to the question of further decentralization of operating functions, prompted by two primary reasons, first to afford to claimants and beneficiaries the most direct service within the area within which they reside, and, second, to help solve the problem of additional space demands in Washington due to the increasing requirements of the several defense agencies in the furtherance of the national defense program. These studies are continuing.

## MEDICAL TREATMENT AND DOMICILIARY CARE

### HOSPITALIZATION

*Remaining under treatment.*—At the expiration of this fiscal year the total hospital load of the Veterans' Administration was 58,417, as compared with 56,841 on June 30, 1940, an increase of 1,576, or approximately 3 percent during this period. The neuropsychiatric load increased 1,509 and the general 86, while the tuberculosis load decreased 19. At the close of this year 78.53 percent of the United States veterans under hospitalization were receiving treatment for disabilities not of service origin, as compared with 78.22 percent on June 30, 1940.

The total patient load at the expiration of this year consisted of 58,160 United States veterans, classified by service as follows: World War, 52,088; Spanish-American War, 2,992; Civil War, 15; all other wars, expeditions, and occupations, 66; and Regular Establishment, 2,999. There were 12,488 United States veterans under treatment for diseases or injuries determined to be of service origin, of whom 10,468 had service in the World War; 20 in the Spanish-American War; 1,997 in the Regular Establishment during peacetime; and 3 in other wars, occupations, or expeditions.

In addition to United States veterans there were under treatment 38 veterans of countries allied with the United States in the World War; 99 employees of the Civilian Conservation Corps and Works Progress Administration; and 120 miscellaneous beneficiaries. Included in the 58,160 United States veterans are 404 female and 5,540 colored beneficiaries.

Of the patients in hospitals at the close of this year 8.02 percent were under treatment for tuberculosis, 59.14 percent for neuropsychiatric diseases, and 32.84 percent for general medical and surgical conditions. This represents a marked change in the character of the patient load since June 30, 1923, when 41 percent of the patients were classed as tubercular, 39 percent as neuropsychiatric, and 20 percent as general.

Of the 58,160 United States veterans under treatment at the end of this year, 54,598 were in facilities controlled by the Veterans' Administration, 2,531 in other Government hospitals, and 1,031 in State or civil institutions. Over 67 percent of the United States veterans in all hospitals are receiving treatment in facilities located in the State of their reported home addresses.

*Admissions.*—Since March 3, 1919, when the acquisition of Government hospital facilities was first authorized for the treatment of veterans of the World War, there have been 2,395,736 admissions of United States veterans to hospitals, of which 187,374 were made during this year, an increase of more than 4 percent over 1940. The admissions for 1941 were the highest for any fiscal year to date.

Since June 7, 1924, when hospitalization was first authorized for the veterans of all wars without regard to the origin of their disabilities, 1,548,675, or about 78 percent of all admissions, have been for the treatment of disabilities not connected with service. Over 93 percent of the admissions this year were on account of nonservice-connected disabilities.

Of the United States veterans admitted to hospitals during this year 89 percent had service in the World War and 6.60 percent in the Spanish-American War. In addition to United States veterans there were 4,371 admissions of other patients, including 134 allied veterans, 1,481 employees of the Civilian Conservation Corps and Works Progress Administration, and 2,756 miscellaneous beneficiaries.

An analysis of the types of hospital admissions during this year shows that 70,000 or 37.4 percent of the total, were first admissions, 110,752, or 59.1 percent, readmissions; and 6,622, or 3.5 percent, admissions by transfer from other facilities.

During this year 9,716 admissions were authorized for the observation and treatment of pulmonary tuberculosis; 9,723 for psychotic or mental diseases; 14,124 for other neurological disorders, and 153,811 for general medical and surgical conditions.

There were 1,230 female and 17,480 colored veterans admitted to hospitals during this year.

Of the 187,374 admissions of United States veterans during this year, 156,512 or 83.5 percent, were made to facilities controlled by the Veterans' Administration; 27,536, or 14.7 percent, to other Government hospitals; and 3,326, or 1.8 percent, to civil and State hospitals.

*Turn-over.*—During the fiscal year 1941 the patient turn-over in all types of Veterans' Administration hospitals was approximately once every  $4\frac{1}{4}$  months. Based upon the experience of this year, hospitals devoted principally to the treatment of neuropsychiatric diseases have a complete patient turn-over once every  $2\frac{1}{4}$  years. The relatively low turn-over rate experienced for this type of case is due to the long and continuous hospital treatment usually required and a low mortality rate. During this fiscal year the turn-over rate for hospitals utilized primarily for the treatment of tuberculosis was about once every  $4\frac{1}{2}$  months. The turn-over rate for this year in hospitals treating a majority of general medical and surgical patients was approximately once every  $1\frac{3}{4}$  months. The turn-over rate shown for each group of hospitals was influenced to a considerable extent by the treatment of other diseases or conditions. A study of the patients discharged from all Veterans' Administration facilities during this year shows that the average length of stay for a general patient was 46.5 days; for a tuberculous patient 188.1 days; for a psychiatric or mental patient 485 days; and for a neuropsychiatric patient (other than mental), 73.3 days.

*Discharges.*—During this fiscal year 251,293 patients were under hospitalization, of whom 246,777 were United States veterans. The total number of patients treated represents an increase of approximately 5.5 percent over 1940. Of the United States veterans treated 188,617 were discharged after an average of 73.8 in-patient days. Patients who remained until the completion of treatment numbered 154,735, or 82.04 percent of the total discharges. The incomplete cases totaled 33,882 and include 9,416 cases in which further treatment or care was required in another facility or out-patient clinic, 8,490 cases in which the patient was transferred to domiciliary care in the same facility, 15,694 cases in which the patient was discharged for personal reasons, i. e., against medical advice, leaving without permission, etc.; and 282 cases not entitled to hospitalization under the laws in effect. Approximately 81 percent of the United States veterans discharged during this year had been under treatment for general diseases or conditions; 14 percent for neuropsychiatric diseases, and 5 percent for pulmonary tuberculosis. In 74 percent of the completed and 57 percent of the incomplete cases, recovery or some improvement was effected.

Deaths in hospitals during this year totaled 12,891, or 6.83 percent of the discharges as compared with 12,028, or 6.73 percent in 1940. Of the total deaths, 9,260, or 71.83 percent occurred among patients under treatment for general conditions; 1,885, or 14.62 percent, for pulmonary tuberculosis; and 1,746, or 13.55 percent for neuropsychiatric diseases. Considering the total discharged after treatment for each type of disability during this year, 18.77 percent of the pulmonary tuberculosis cases resulted in death, 6.09 percent of the general, and

6.60 percent of the neuropsychiatric. Of the 9,260 deaths among general patients, approximately 30 percent were caused by diseases of the circulatory system, approximately 24 percent by malignant tumors and about 9 percent by diseases of the digestive system.

During the year 149,888 World War veterans were discharged after treatment for diseases or conditions not connected with service and 9,856 for disabilities of service origin. There were 8,893 cases in which the veteran was admitted for examination or observation, and 48 cases, classed as emergency. The remaining 19,932 discharges of United States veterans were classified by service as follows: Spanish-American War, 70 service-connected and 12,367 nonservice-connected; Regular Establishment, 2,281 service-connected and 4,914 nonservice-connected; Civil War, 106 nonservice-connected; and miscellaneous occupations, rebellions, etc., 1 service-connected and 193 nonservice-connected. In addition to United States veterans there were 4,259 discharges of other patients, 128 of which were veterans of countries allied with the United States in the World War, 1,464 employees of the Civilian Conservation Corps and Works Progress Administration, and 2,667 miscellaneous beneficiaries.

Included in the total of 188,617 discharges of United States veterans during this year are 8,490 cases classified as intrafacility transfers, i. e., cases in which the veterans were transferred from hospital treatment to domiciliary care within the same facility.

#### DOMICILIARY CARE

*Remaining.*—On June 30, 1941, the veteran population reported as present in domiciliary status in facilities under the control and jurisdiction of the Veterans' Administration totaled 13,978, as compared with 16,518 on June 30, 1940, a decrease of 2,540 during this fiscal period.

The number present in domiciliary status on June 30, 1941, was divided as to color and sex as follows: White males, 12,310; white females, 147; and colored males, 1,521.

The percentage distribution of the membership, by wars, as of June 30, 1941, was as follows: Spanish-American, 4.96; World War, 91.87; other wars, expeditions, and occupations, 0.10; and peacetime service in the Regular Establishment, 3.07.

The approximate average age of the veterans of each of the major wars who were present in domiciliary status at the close of this fiscal year was as follows: Spanish-American, 66; and World, 48.

Of the veterans remaining under domiciliary care at the end of this year, 9,151 were disabled by general medical and surgical conditions, 4,588 by neuropsychiatric diseases, and 239 by tuberculosis.

Approximately four-fifths of the domiciled veterans on June 30, 1941, were under care in facilities located in California, Kansas, New York, Ohio, Tennessee, Virginia, and Wisconsin.

In conformity with the act of August 27, 1888 (U. S. C., title 24, sec. 134), as amended by the act of August 1, 1939 (Public, No. 250, 76th Cong.), the Federal Government is required to reimburse State or Territorial homes for disabled volunteer soldiers at the rate of \$240 per year for each person domiciled or hospitalized therein who is eligible for similar care in facilities controlled by the Veterans' Administration. During this year an average of approximately 5,966 such persons was cared for in these homes, thereby creating an obligation of over \$1,431,840 on the part of the Federal Government.

*Admissions.*—During this year there were 30,201 admissions for domiciliary care, as compared with 29,111 admissions for the fiscal year 1940, an increase of 1,090.

An analysis of the types of admissions shows that 3,555, or 11.77 percent, were first admissions; 22,335, or 73.96 percent, readmissions; and 4,311, or 14.27 percent, admissions by transfer from other facilities.

Of the veterans admitted to domiciliary care during this year 27,532, or approximately 91 percent, had service in the World War, and 1,612, or approximately 5 percent, in the Spanish-American War. There were 250 female and 2,500 colored veterans admitted for domiciliary care during the year.

Approximately 93 percent of the admissions this year were for nonservice-connected disabilities.

Of the veterans admitted during this year 70 percent were disabled by general medical and surgical conditions, 28 percent by neuropsychiatric diseases, and 2 percent by tuberculosis.

*Discharges.*—During this year 31,991 veterans were discharged after an average of 6½ months' domiciliary care. These discharges were classified as follows: 17,676 routine; 9,234 transfers within the same or to other facilities; 97 deaths; 439 ineligible for further care; and 4,642 without formal discharge, including disciplinary reasons. Approximately 66 percent of the discharges were for veterans with general medical conditions. The principal causes of death among domiciled veterans were diseases of coronary arteries and angina pectoris, diseases of the myocardium, and syphilis, which collectively were responsible for approximately 64 percent of the deaths.

Of the total veterans discharged 29,346 were World War veterans, and of these 27,082 were disabled for nonservice-connected disabilities. The other discharges were classified as to service as follows: Spanish-American War, 1,580; Regular Establishment, 1,043; Civil War, 1; and all other wars, occupations, and expeditions, 21. Included in the total of 31,991 discharges during this year were 7,704 cases classified as intrafacility transfers, i. e., cases in which the veteran was transferred from domiciliary care to hospital treatment within the same facility.

#### HOSPITAL AND DOMICILIARY FACILITIES

On June 30, 1941, the Veterans' Administration was operating hospital facilities at 91 locations in 45 States and the District of Columbia. These facilities had a capacity of 61,849 beds, an increase of 2,212 over the number available July 1, 1940.

During this year new hospital facilities were opened at Brecksville, Ohio; Dallas, Tex.; Fayetteville, N. C.; Ft. Howard, Md.; and Montgomery, Ala.; while additional hospital beds were acquired through new construction, alterations, or readjustment of space at Atlanta, Ga.; Augusta, Ga.; Bronx, N. Y.; Canandaigua, N. Y.; Danville, Ill.; Des Moines, Iowa; Ft. Harrison, Mont.; Lexington, Ky.; Los Angeles, Calif.; Minneapolis, Minn.; Newington, Conn.; Portland, Oreg.; Roanoke, Va.; Salt Lake City, Utah; San Francisco, Calif.; Togus, Maine; and Wadsworth, Kans.

At the expiration of this year the Veterans' Administration was utilizing 2,570 beds in other Government hospitals, distributed by branch of service as follows: Army, 705; Navy, 995; Federal Security

Agency, 870 (Public Health Service, 790, and St. Elizabeths, Washington, D. C., 80).

On June 30, 1941, there were 18,747 beds set aside for domiciliary care in facilities under the jurisdiction of the Veterans' Administration as compared with 18,497 on June 30, 1940, a net increase of 250 beds, which resulted from construction at Los Angeles, Calif., a part of which provided replacement facilities.

The total number of beds in facilities controlled by the Veterans' Administration on June 30, 1941, was 80,596 as compared with 78,134 on June 30, 1940, an increase of 2,462.

During the period beginning with the act of March 3, 1919 (Public, No. 326, 65th Cong.) and ending with the act of May 24, 1941 (Public Law, No. 73, 77th Cong.), the Congress has specifically authorized and appropriated the sum of \$165,574,267 for new hospital, domiciliary, and out-patient dispensary facilities. In addition, since 1923 there has been expended from regular fiscal funds the sum of \$25,705,721 for permanent improvements and extensions to facilities. Subsequent to the consolidation of veterans' activities in 1930, there has also been expended from the general post fund established by the former National Home for Disabled Volunteer Soldiers, the sum of \$1,133,191 for improvements. Further, the Veterans' Administration has been allotted for improvements and new construction, the sum of \$3,041,650 from the National Recovery Act of 1933, and the sum of \$13,268,200 from the Public Works Administration Appropriation Act of 1938. In all, a total of \$208,723,029 has been made available for construction purposes during the past 22 years.

#### FUTURE HOSPITAL AND DOMICILIARY CONSTRUCTION

At the close of this fiscal year work was in progress on 14 projects involving additional beds. These projects, together with estimated dates for completion, are as follows:

Location	Project	Beds	Estimated date for completion
Bronx, N. Y.	Alterations	95	June 30, 1942
Danville, Ill.	do.	72	June 30, 1942
Excelsior Springs, Mo.	Readjustment of space	1	July 8, 1941
Jefferson Barracks, Mo.	do.	78	Nov. 1, 1941
Do.	do.	100	July 1, 1942
Lake City, Fla.	General facilities	28	Oct. 27, 1941
Marion, Ill.	New general facility	160	Feb. 4, 1942
Muskogee, Okla.	Alterations	14	June 30, 1942
Perry Point, Md.	Neuropsychiatric facilities	179	Oct. 6, 1941
Do.	Alterations	60	Feb. 1, 1942
Roanoke, Va.	Neuropsychiatric facilities	152	Mar. 15, 1942
Tuscaloosa, Ala.	Alterations	23	Aug. 1, 1941
Tuskegee, Ala.	do.	18	Aug. 1, 1941
Wadsworth, Kans.	do.	14	Aug. 1, 1941
Total		994	

The 994 additional beds to be acquired as the result of work in progress on June 30, 1941, were distributed by types as follows: general medical and surgical, 494; psychiatric, 486; and domiciliary 14.

The approved new construction program for which funds were available on June 30, 1941, but which had not been placed under contract by that date, is as follows:

Location	Project	Hospital beds
Canandaigua, N. Y.	Neuropsychiatric facilities	164
Chillicothe, Ohio	do	90
Marion, Ind.	do	134
Fr. Howard, Md.	General facilities	259
Newington, Conn.	do	15
West Roxbury, Mass.	New General facilities	300
Total		962

As shown in another section of this report, there were available on June 30, 1941, in all facilities controlled by the Veterans' Administration, 61,849 hospital and 18,747 domiciliary beds, a total of 80,596 beds of both types. Upon completion of new construction for which funds were available on June 30, 1941, there will be 63,791 hospital and 18,761 domiciliary beds, a combined total of 82,552 in Veterans' Administration facilities. Adding to the latter the total of 2,570 beds in use in other Government hospitals and the 1,049 in civil and state hospitals, there results a combined total of 86,171 beds of all types for beneficiaries of the Veterans' Administration.

During this year, certain preliminary work was accomplished in connection with the proposed ten-year construction program which will, ultimately increase the total beds available to 100,000. The sum of \$2,000,000 (Public, No. 78, 77th Congress, approved April 5, 1941) was appropriated during the current fiscal year for the furtherance of this program, making a total appropriation to date of \$3,000,000.

#### OPERATING AND PER DIEM COSTS FOR HOSPITAL AND DOMICILIARY FACILITIES

During this year the net operating expense for all hospital and domiciliary facilities controlled by the Veterans' Administration totaled \$61,113,968.86, of which \$55,443,548.50 was for hospital and \$5,670,420.36 for domiciliary facilities. This amount does not include expenditures for new construction, betterments, structural alterations undertaken for preservation of buildings, maintenance and operation of personnel quarters, nonexpendable equipment, furniture and furnishings, or those for the diagnostic centers at San Francisco, California, and Hines, Illinois. Throughout the year there was a daily average of 54,582 patients of all types under treatment, and a daily average of 16,696 beneficiaries receiving domiciliary care, as compared with 52,409 and 16,708, respectively, during the fiscal year 1940.

The per diem cost of operation for hospital facilities used principally for the treatment of tuberculosis was \$4.14, for those used exclusively for the treatment of neuropsychiatric diseases, \$1.93, and for those used largely for the treatment of general medical and surgical conditions, \$3.81. Collectively the per diem cost of operation for hospital facilities of all types was \$2.78. The per diem cost of operation for domiciliary facilities for this year was \$0.93.

#### PHYSICAL EXAMINATIONS AND OUT-PATIENT TREATMENT

During the fiscal year, the out-patient units of field stations made a total of 1,111,589 physical examinations, a decrease of 12,785 in

the number accomplished during the preceding year. Of the examinations made during this year 1,090,985 were medical and 20,604 or 2 percent were dental. Approximately 99 percent of the medical and 91 percent of the dental examinations were made by physicians and dentists on a salary basis. The comparatively few physical examinations made by designated physicians on a fee basis comprised, for the most part, simple general examinations not requiring the services of a specialist or laboratory examination, or cases in which the claimant or beneficiary was not physically or mentally able to travel to the nearest field station, and it was more economical to employ a physician in the community than to travel a physician from the field station to and from the home of the claimant or beneficiary.

Included in the total physical examinations are approximately 69,190 examinations made upon request of other Federal agencies and 769 made for pensioners of nations allied with the United States in the World War.

Out-patient treatments furnished during the year totaled 1,176,658 as compared with 1,169,684 for the previous year, an increase of 6,974. Of the treatments approximately 91 percent were medical and 9 percent dental. As was the case in the preceding year, approximately 90 percent of the medical and 94 percent of the dental treatments were furnished by physicians on a salary basis. This concentration of out-patient treatments at field stations makes for economy, and the service is better supervised than when the treatments are authorized to be rendered by private physicians in the home communities of the beneficiaries.

Under the terms of Public No. 668, 76th Congress, June 27, 1940, the Veterans' Administration is required to charge fees for all medical services rendered on behalf of other Federal agencies. By reciprocal agreement, a fee was similarly charged for examinations made of pensioners of allied nations.

The out-patient services of the Veterans' Administration were considerably utilized from November 1940 for physical and especially laboratory examinations of officers and enlisted men who were being inducted into the armed forces. Such services were also made available at certain stations upon request of local boards of the Selective Service System.

The prohibition against the rendering of medical treatment for beneficiaries in foreign countries which was included in Public No. 2, 73d Congress, March 20, 1933, was repealed by a law authorizing such treatment for applicants suffering from service connected conditions who could establish the fact that they have a status of American citizenship. By agreement, the Department of State undertook to establish that required status before arranging, as heretofore, the treatment of such citizens living in foreign countries (other than Canada, where direct arrangements are made through a reciprocal agreement with the Department of Pensions and National Health, Ottawa). There was only one such application received during this fiscal year—from an ex-member of the armed forces of the United States who was a resident of the Republic of Cuba, and who was found ineligible because the conditions for which he requested treatment had no relation to such former military service. The conditions obtaining in Europe at the present time make practically impossible

the furnishing of medical treatment to citizens of the United States who are residing in countries now occupied by German military forces.

#### DENTAL ACTIVITIES

During the fiscal year dental care was provided for 32,300 hospital patients, 11,011 domiciliary members, and 3,584 out-patients in clinics maintained by the Veterans' Administration. These 46,895 beneficiaries were treated at an actual cost of \$1,033,269 as compared with the treatment of 60,240 veterans at a cost of \$974,631 for the previous year. Had these services been secured through the medium of private practitioners, the estimated cost would have been \$1,846,266. Thus, a saving of \$812,997 was effected by the operation of dental clinics by this Administration. The cost per case of furnishing this relief during 1941 was \$22.03 as compared with \$16.23 in 1940 and \$25.93 in 1930.

While dental services are rendered as far as possible at field stations of the Veterans' Administration, economy in transportation costs can at times be effected by authorizing dental services for beneficiaries in their local communities, to be done by designated dentists or private practitioners at established fees. During this year 1,876 beneficiaries were referred for such treatment, at a cost of \$75,900 as compared with 2,032 beneficiaries at a cost of \$84,681 in 1940.

The general policy of the Administration is to complete all necessary dental work, including insertion of artificial dentures, during a period of hospitalization of a beneficiary. If this is not feasible, the beneficiary is dehospitalized, with authority to return later for the fitting of any prescribed dental prosthesis. During this year, 4,960 beneficiaries were readmitted to hospitals for the furnishing of artificial dentures made necessary because of teeth extraction during previous hospitalization. This represents an increase of 1,274 in the number of such readmissions over the preceding year. It is expected that this increase will continue for some time, since as beneficiaries advance in age they will require more extractions of worn-out teeth, followed by replacements with artificial dentures. In this year, a total of 35,227 new dentures were fabricated and repairs made to 8,660 old dentures, as compared with 32,005 new dentures and 8,519 repairs in 1940.

On June 30, 1941, there were 181 full-time dentists on duty in clinics of this Administration, an increase of 7 over the corresponding date of last year.

#### PENSIONS AND COMPENSATION

##### VETERANS

*Civil War.*—Out of a total of 2,213,365 that served in the Union forces in this war, which terminated 76 years ago, pensions were being paid to 1,560 veterans on June 30, 1941. This represents a reduction of 821 in the number of veterans since June 30, 1940. Of those on the pension roll at the close of this year, 20 were receiving \$50 per month, 136 were in receipt of \$75 per month, one \$85 per month, while 1,385 were being paid \$100 per month by reason of being helpless or blind or so nearly helpless or blind as to require the regular aid and attendance of another person. The balance of the pension roll consisted of 18 veterans in receipt of \$50 per month under special acts of Congress.

The disbursements for pensions to veterans during this fiscal period totaled \$2,049,976.78, as compared with \$3,158,998.10 for the previous year, a reduction of \$1,109,021.32. There were 14 claims filed during this year. The average age of veterans receiving pensions at the close of this year was 96.

*Indian Wars.*—On June 30, 1941, pensions were being paid to 1,955 veterans on account of Indian War service, and the disbursements for this purpose amounted to \$1,504,114.43 during this fiscal year. This represents a decrease of 261 in the number of veterans on the roll June 30, 1940, and a decrease of \$190,368.22 in disbursements over last year. There were 77 claims filed during this year. The average age of veterans receiving pensions at the close of this year was 81.

*Spanish-American War, Boxer Rebellion, and Philippine Insurrection.*—The number of veterans on the roll at the close of this fiscal year was 153,072 as compared with 159,230 on June 30, 1940, a decrease of 6,158. The disbursements for this purpose during 1941 totaled \$105,273,998.31 as compared with \$106,203,201.30 in 1940, a decrease of \$929,202.99.

Of the 153,072 veterans on the roll, 151,497 were receiving pension payments for disabilities of nonservice origin or for age, 1,497 for conditions determined to be the result of service, and 78 were special act cases.

On June 30, 1941, the average monthly value of all pension awards for nonservice-connected disabilities or age was \$56.08; for service-connected disabilities, \$77.00; and for special act cases, \$22.10.

An analysis of the service-connected group by type of major disability indicates that 4 percent are suffering from tuberculosis, 12 percent from neuropsychiatric conditions, and 84 percent are classed as general medical and surgical cases. The average monthly value for these groups is as follows: Tuberculosis, \$83.97; neuropsychiatric, \$81.09; and general medical, \$76.09. In the nonservice-connected group 115,553, or 76 percent of the total, are receiving pensions because of disabilities. The average monthly pension in these cases is \$55.92. In addition, 35,944 veterans, or 24 percent of the total, are receiving pensions by reason of age, the average monthly payments being \$56.61. A study of the age of all Spanish-American War veterans shows that 80 percent are between 60 and 70 years of age.

*World War service-connected.*—Compensation was being paid on June 30, 1941, to a total of 349,722 veterans suffering from disabilities directly or presumptively connected with service during the World War, an increase of 1,558 in the number on the roll at the beginning of this fiscal period. Of those on the roll at the close of this year 258,403 were receiving payments under Public, No. 141, and 91,319 under Public, No. 2, approved March 20, 1933. There were 234,142 of the group under Public, No. 141, receiving full payments, 21,498 receiving 75 percent of the World War rates as presumptive cases, and 2,763 in which part of the payment was made at the full rate and part at 75 percent of the rate, depending on the service connection of two or more disabilities. The disbursements during this year totaled \$169,142,735.47 as compared with \$168,387,884.83 in 1940, an increase of \$754,850.64. An analysis of the major disabilities for which this compensation is being paid discloses that neuropsychiatric diseases are the disabling cause in 19.70 percent of the awards, tuberculosis in 15.40 percent, and general medical and

surgical conditions in 64.90 percent. The average monthly payments by types, based upon the value of awards at the close of this year, were as follows: Neuropsychiatric, \$50.94; tuberculosis, \$52.86; and general medical and surgical, \$33.18. The average monthly payment for all types was \$39.71. Additional compensation was being paid on account of dependents in 27,133 cases in which the veteran was rated on a temporary basis at an average of \$7.21 per case per month. These dependents included 25,498 wives, 49,283 children, and 1,377 parents.

The emphasis, in administering the laws providing disability compensation to World War veterans on account of service incurred disability, has been continually to further maintenance of service connection heretofore granted, and stabilization of disability evaluations insofar as these ends can be effectuated under existing laws. As previously noted in these reports, the advancement of disease, and its association in individual cases with related diseases, and also advancement of the art of medicine and further observation of the individual, create many difficult problems. Even recovery from severe disabling illness at the present age of World War veterans does not produce the practical possibility of reemployment. As a result of the above policies, however, it is believed that terminations and reductions are held to a minimum.

The combat injury review, brought to practical completion during the year, covered 252,277 cases of which 36,608 involved combat injuries heretofore rated noncompensable. Seven thousand, five hundred and forty-two cases were allowed as 10 percent or more disabled. It is believed that this thorough review has succeeded in reaching, as far as humanly practicable, all significantly disabled veterans, having combat injuries, who have filed claims with the Veterans' Administration.

The number of World War veterans having service incurred permanent total disability, on the rolls at the end of the fiscal year, was 33,729, an increase of over 800 as compared with the end of the previous year. There was a similar increase in the fiscal year 1940. These increases are to be compared with a small decrease accumulative over the preceding five years under substantially the same legislation, and reflect the liberalized policy outlined in the preceding report. Of 349,722 veterans having service-incurred disability, 33,816, or less than 10 percent, were rated on a temporary basis.

*World War nonservice-connected.*—This group of totally disabled World War veterans whose disabilities have been determined to be not due to their military service, is a steadily increasing group as is to be expected with the advancing age of veterans and the hazards of disease and injury in civilian life. During this fiscal year the number on the roll increased from 60,296 to 72,478, all at the present total disability rate of \$30 per month unless reduced to \$6 on account of receiving institutional care at Government expense and having no dependents. Of those on the roll, 1,008 or 1.39 percent, are over 68 years of age; 2,514, or 3.47 percent, are over 62 years of age; and 6,540, or 9.02 percent, are over 55 years of age. Disbursements to this group during the fiscal year 1941 amounted to \$23,418,546.58 as compared with \$19,324,715.45 during the year ending June 30, 1940, an increase of \$4,093,831.13.

*Regular establishment.*—During this fiscal year the number of veterans on the pension roll as a result of disability incurred in service in

time of peace increased from 36,051 to 37,520. Disbursements increased from \$12,728,872.47 to \$14,382,840.09, while the average monthly value increased from \$31.48 to \$32.10.

#### DEPENDENTS

*War of 1812.*—Although 126 years have elapsed since the close of this war in 1815, there was at the end of this year one person still receiving pension on account of service rendered by a soldier of this war. This beneficiary is Esther Ann Hill Morgan, Independence, Oregon, daughter of John Hill, private, Clark's and McCumber's Companies, New York Militia, pensioned at the rate of \$20.00 per month.

*Mexican War.*—This war ended May 30, 1848, over 93 years ago. On June 30, 1941, there were 107 widows of veterans of this war on the pension rolls, while payment to this class totaled \$65,772.33 in 1941. This represents a decrease of 23 in the number on the rolls June 30, 1940, and a reduction of \$18,841 in disbursements for 1940.

*Civil War.*—On June 30, 1941, pensions were being paid to the widows, including remarried widows, and children of 43,313 deceased veterans of this war, as compared with 50,141 at the beginning of this fiscal period, a decrease of 6,828. The pensions were being paid to 41,279 widows, and remarried widows, and 2,211 children. There were 5,651 cases in which \$30 per month was being paid, and 32,638 in which the beneficiary was in receipt of \$40 per month as provided by law for widows of the attained age of 70 years, and 345 in which \$50 per month was being paid as authorized by law for widows who were the wives of soldiers during their service in this war. There were 3,817 cases in which dependents were in receipt of pensions under Special Acts of Congress, and 862 in which the dependents were being paid pensions under general laws because of the death of the veteran from causes due to military service. The disbursements during this fiscal period totaled \$21,123,490.17 as compared with \$24,631,254.83 for last year, a decrease of \$3,507,764.66. The peak in the number on the roll was reached in 1912, when the dependents of 304,373 deceased veterans were receiving pensions.

During this year 844 dependent claims were under consideration of which 416 were disposed of, leaving 428 pending on June 30, 1941. The number of widows and other dependents dropped from the pension rolls during this year by reason of death was 7,069 or 14.10 percent, of the number on the rolls at the beginning of the fiscal year.

*Indian Wars.*—On account of Indian War service the dependents of 3,836 deceased veterans were in receipt of pensions on June 30, 1941, and to this class \$1,404,348.46 was paid during 1941. These figures represent decreases of 219 in the number of cases on June 30, 1940, and \$79,123.73 in disbursements of the preceding year. The dependents receiving pension on June 30, 1941, totaled 3,876 and were classified as follows: widows, 3,798; children, 68; and others, 10. Of the claims of widows, including remarried widows, children and others under consideration during this year 189 were disposed of.

*Spanish-American War.*—On June 30, 1941, pensions were being paid to the widows, children and dependent parents of 60,555 veterans of this war as compared with 57,720 on June 30, 1940, an increase of 2,835. These pensions were being paid to 58,237 widows, 6,954 children, 297 parents, and 9 others, a total of 65,497. To these beneficiaries \$22,083,084.89 was paid during this year as compared with

\$21,224,174.53 in the previous year, an increase of \$858,910.36. The claims of widows, remarried widows, minor children and dependents of veterans under consideration during this year numbered 6,824 of which 5,091 were disposed of, leaving 1,733 pending at the close of this year, awaiting receipt of necessary proofs to establish title to pension.

*World War, service-connected.*—On June 30, 1941, compensation was being paid to the widows and children and dependent parents of 96,833 veterans of the World War who died in service or as a result of diseases or injuries incurred either directly or presumptively in service during said war, as compared with 99,479 at the close of the fiscal year 1940, a decrease of 2,646 cases. This compensation was being paid to 30,509 widows, 29,267 children and 77,262 parents. Death claims have been paid to date to the widows and dependents of 161,107 deceased veterans. The disbursements for this purpose during the fiscal year of 1941 totaled \$55,458,891.49, as compared with \$56,799,064.01 in 1940, a decrease of \$1,340,172.52.

An analysis of the principal causes of death of veterans who died as a result of service and whose dependents are now receiving benefits discloses that 30 percent died from tuberculosis, 25 percent from injuries, principally wounds in action, and 24 percent from diseases of the respiratory system, other than tuberculosis.

A study of the awards of this benefit indicate that 30 percent of the deaths on account of which payments were being made on June 30, 1941, occurred on or prior to July 2, 1921, the official ending date of the World War.

*Death not due to service connection.*—The Act of June 28, 1934, as amended authorizes the payment of compensation to the widows and children of World War veterans in those cases in which the veteran died from a cause not connected with service and had a disability incurred in or aggravated by service for which compensation would be payable if 10 per centum or more in degree.

To date 81,515 claims have been adjudicated under this Act as amended, of which 24,015 have been allowed. On June 30, 1941, payments were being made on 22,010 cases involving 18,728 widows and 30,741 children. The average monthly value per case is \$35.08 and during this year \$9,804,489.21 was disbursed for this benefit, an increase of \$2,406,151.23 over 1940. The original act of June 28, 1934, has not been amended since July 19, 1939, but the increased number of claims allowed under this act during the past fiscal year was caused in part by the additional claims filed and allowed during the year as a result of this most recent liberalizing amendment.

*Regular establishment.*—On June 30, 1941, pensions were being paid to the dependents of 10,860 veterans whose death was determined to be the result of disease or injury originating in line of duty in the military or naval service in time of peace. This is an increase of 734 cases during the year. These pensioners received during this period \$3,286,452.75, an increase of \$203,558.97 over last year. The dependents of these deceased veterans totaled 17,032 and were divided as follows: widows, 5,837; children, 5,892; parents, 5,295, and others, 8.

#### SUMMARY

The following table shows by wars and for the Regular Establishment the number of living veterans receiving monetary benefits

exclusive of insurance and adjusted compensation, on June 30, 1941, and June 30, 1940, and the total payments to them during the fiscal years 1941 and 1940, together with number of deceased veterans on whose account dependents were receiving compensation or pension benefits on June 30, 1941, and June 30, 1940, and the disbursements to dependents for these purposes during the fiscal years 1941 and 1940.

#### RETIREMENT OF EMERGENCY, PROVISIONAL, PROBATIONARY, OR TEMPORARY OFFICERS OF THE WORLD WAR

On June 30, 1941, there were 2,660 emergency, provisional, probationary, or temporary officers of the World War on the retirement roll as compared with 1,801 emergency officers on June 30, 1940, an increase of 859 during this fiscal period. Of the 2,660 on the active roll at the close of this year 2,581 were receiving full payment. In the remaining 79 cases, there was a complete forfeiture of retirement pay in 43 and a partial in 36. Thirty-two of the complete forfeitures were due to the application of section 212 of Public No. 212, Seventy-second Congress, approved June 30, 1932, which provided that in case the salary of any retired officer (except those whose disability was incurred in combat with an enemy of the United States) in the employ of the Federal Government together with the retirement pay exceeds \$3,000 per annum, the retirement pay shall be reduced or discontinued to the extent to which the sum of the two equals \$3,000. Of the remaining 11 complete forfeitures 3 were on account of active duty in the National Guard and 8 because the beneficiary was incompetent and had an estate of over \$1,500. Of the 36 partial forfeitures 18 were due to the application of section 212 of Public No.

212 hereinbefore mentioned and 18 because the beneficiaries were receiving retirement pay as enlisted men of the Regular Army.

The average monthly payment for officers receiving full retirement pay was \$137.87, based on the annual value of the roll at the close of this year, as compared with \$136.53 on June 30, 1940, an increase of \$1.34.

The disbursements for this purpose during the fiscal year 1941 totaled \$4,114,972 as compared with \$2,936,259 in 1940, an increase of \$1,178,713. Of the 2,660 officers entitled to retirement at the close of this year, 2,575 served in the Army, 70 in the Navy, and 15 in the Marine Corps.

As the result of the provisions of Public No. 743, 76th Congress, July 15, 1940, a total of 957 emergency officers was found to be entitled to retirement pay. Public No. 746, 76th Congress, July 18, 1940, which provides emergency officers' retirement benefits to World War, provisional, probationary, or temporary officers under certain conditions, also added 5 officers to this roll.

## INSURANCE

### U. S. GOVERNMENT LIFE

At the close of the fiscal year there were 613,320 United States Government life (converted) insurance policies in force representing \$2,567,154,350 of insurance, as compared with 608,923 policies representing \$2,564,984,223 of insurance in force at the close of the preceding year, an increase of 4,397 in the number of policies and \$2,170,-127 in the amount of insurance.

The authority to grant United States Government life insurance under section 300 of the World War Veterans Act, 1924 (38 U. S. C. 511) to persons entering the active service under the War Department, the Navy Department, or the Coast Guard Service, was terminated by the provisions of section 611 of the National Service Life Insurance Act of 1940 (Public No. 801, 76th Congress). There has been no change in the authority to grant such insurance to veterans of the World War under section 310 of the World War Veterans Act, 1924 (38 U. S. C. 512-a).

A new dividend schedule was adopted January 1, 1941, and there has been reserved for the payment of dividends the sum of \$8,600,000 to be distributed to policyholders entitled in accordance with this schedule on the anniversary dates of their policies during the calendar year 1941.

There was in force at the end of the calendar year 1940, total disability insurance amounting to \$174,912,517 issued in connection with 29,810 Government life insurance policies in accordance with Section 311 of the Act as amended July 3, 1930, and total disability insurance amounting to \$2,257,500 issued in connection with 524 policies in accordance with the amendment of May 29, 1928.

*Applications.*—Applications for United States Government life (converted) insurance, approved during this fiscal year totaled 32,400, aggregating \$102,962,953, as compared with 52,713 applications amounting to \$144,315,328 approved during the fiscal year 1940. The total number of applications approved to June 30, 1941, is 1,115,458 amounting to \$4,630,362,976 insurance.

*Policies issued.*—The following table shows the number and amount of United States Government life (converted) insurance policies issued by months for the fiscal year 1941.

Date	Number	Amount	Date	Number	Amount
1940			1941		
July.....	4,716	\$15,003,609	January.....	424	\$2,285,724
August.....	5,178	14,572,530	February.....	302	1,227,560
September.....	6,522	19,059,281	March.....	332	1,526,191
October.....	8,124	24,122,795	April.....	308	1,474,077
November.....	5,090	16,383,442	May.....	402	1,844,293
December.....	603	3,578,271	June.....	399	1,885,180
			Total.....	32,400	102,962,953

*Analysis by plan.*—The following table shows the number and amount, the percentage, and the average amounts of United States Government life insurance policies issued to June 30, 1941, classified by plan.

Plan of insurance	To date		Percent of total		Average policy
	Number	Amount	Number	Amount	
Ordinary life.....	218,514	\$1,049,231,404	19.59	22.66	\$4,801.67
20-payment life.....	320,764	1,142,979,682	28.76	24.68	3,563.30
30-payment life.....	38,307	188,304,355	3.43	4.07	4,915.66
20-year endowment.....	255,811	638,797,289	22.93	13.80	2,497.15
30-year endowment.....	46,282	190,260,352	4.15	4.11	4,110.89
Endowment at age 62.....	45,563	212,680,100	4.09	4.59	4,667.82
5-year convertible term.....	145,473	960,349,711	13.04	20.74	6,601.57
5-year level premium term.....	44,744	247,760,083	4.01	5.35	5,537.28
Total.....	1,115,458	4,630,362,976	100.00	100.00	4,151.09

*Policies in force.*—At the close of this fiscal year there were in force 613,320 United States Government life (converted) insurance policies amounting to \$2,567,154,350 insurance. During this fiscal year 620 policies amounting to \$2,619,951 insurance were reinstated. The following table shows by fiscal years the number and amount of yearly renewable term and United States Government life insurance in force.

Fiscal year ended June 30—	Yearly renewable term insurance		United States Govern- ment life insurance		Total	
	Number	Amount	Number	Amount	Number	Amount
1921.....	397,890	\$2,980,660,235	253,164	\$868,715,500	651,054	\$3,849,375,735
1922.....	300,926	2,314,663,588	280,852	1,033,736,886	581,778	3,348,400,474

1937.....	150	356,519	596,832	2,577,982,119	596,982	2,578,338,638
1938.....	349	653,183	602,614	2,569,240,190	602,963	2,569,893,373
1939.....	355	641,553	605,716	2,561,712,315	606,071	2,562,353,868
1940.....	171	343,047	608,923	2,564,984,223	609,094	2,565,327,270
1941.....	88	237,686	613,320	2,567,154,350	613,408	2,567,392,036

*Policies matured as endowments.*—During the fiscal year 1941 there matured as endowments payable to the policyholders 12,958 policies amounting to \$31,931,404.30. The total number of policies matured as endowments through June 30, 1941, is 40,114 representing \$94,162,127.30 insurance.

*Policies surrendered for cash and paid-up insurance.*—United States Government life insurance policies provide that after having been in force 1 year they may be surrendered for cash or paid-up insurance. During this fiscal year, there were 9,260 policies, representing \$24,-672,185.13 insurance, surrendered for cash. The total number of policies surrendered for cash through June 30, 1941, is 152,236, representing \$468,381,233.61 insurance.

During this fiscal year policies having a total face amount of \$1,099,721 were surrendered for paid-up insurance, while 209 policies having a total face amount of \$469,490 paid-up insurance were issued. Through June 30, 1941, policies having a total face amount of \$28,359,729 have been surrendered for paid-up insurance, and 5,253 policies having a total face amount of \$7,069,191.04 paid-up insurance have been issued.

*Premium income.*—United States Government life insurance premiums are deposited to the credit of the United States Government Life Insurance Fund from which are paid claims on account of total permanent disability and death, dividends and refunds. During the fiscal year ended June 30, 1941, premiums amounting to \$56,966,523.88 were received on United States Government life insurance policies. The amount of United States Government life insurance premiums received to date totals \$1,178,501,776.92.

*United States Government Life Insurance Fund.*—The United States Government Life Insurance Fund is a trust fund administered by the Government as trustee for the sole benefit of the policyholders. The Government derives no profit whatever from the administration of the fund which may be used only for the payment of claims under United States Government life insurance contracts and dividends to the policyholders themselves. All premiums paid on United States Government life insurance and all interest earned thereon are covered into this fund in the United States Treasury. In considering the United States Government Life Insurance Fund it must be clearly understood that the beneficial interest in the reserves belongs exclusively to the policyholders.

*Dividends.*—Dividends on United States Government life insurance represent a return from the excess of the premiums paid over the actual current cost of the insurance protection, provided the reserves necessary to cover the future liability assumed on account of the combined benefits, including both total permanent disability and death, have been accumulated.

All policies of United States Government life insurance include a provision granting benefits on account of total permanent disability, which is exceptionally valuable due to the fact that there is no limit as to the age before which such disability must occur. The premiums charged for this combined benefit, including both death and total permanent disability, are the net premiums for the death benefit only, based on the assumption that the deaths will occur in accordance with the American Experience Table of Mortality and that the invested funds will earn 3½ percent interest. There is no loading

added to the net premium for expenses, since the Government pays all the cost of administration as well as the losses resulting from the extra hazard of the military or naval service.

The cost of providing the benefits on account of total permanent disability is not the same for all policyholders, but varies with the plan of insurance and the age of the insured. It is greater under the life plans than under the endowment plans for the reason that under the former the protection is continued for the whole period of life, while under the latter, it ceases at the end of the endowment period. Furthermore, the cost under any given plan increases with the age of the insured.

Since no additional premium is charged for the benefit granted on account of total permanent disability, it is necessary to make provision for the cost of this benefit out of earnings which otherwise would be considered as surplus, if no benefit on account of total permanent disability were provided, before any part of these earnings can be distributed as dividends.

The present schedule of dividend payments is the result of an extensive study made by competent and disinterested consulting actuaries of the experience over a period of years under United States Government life insurance and it equitably reflects the sources from which gains and savings are derived. Under this schedule, those policies on which the premiums and earnings to date have been adequate to build up the entire reserves required on account of both the death and total permanent disability benefits provided in the policy are entitled to and are receiving dividends. Those policies which have not yet accumulated the necessary reserves will not become entitled to dividends unless and until the reserves required have been accumulated.

There were 387,850 dividends amounting to \$8,232,654.04 paid during the fiscal year ended June 30, 1941. The total dividends paid to date are 8,964,265 amounting to \$109,428,626.11.

*Claims (converted).*—Through June 30, 1941, a total of 20,063 awards has been made for permanent and total disability of which 7,101 have subsequently been changed to death awards. In addition, there have been 40,504 original death awards or a total of 47,605 such cases. These death awards involved the payment of insurance in the amount of \$273,707,462.87 of which \$188,010,715.75 was disbursed in lump sum payments to 35,157 beneficiaries. Death cases numbering 4,494 having insurance amounting to \$19,285,125.16 have been terminated due to expiration in installment payments. Payments of converted insurance averaging \$35.47 monthly are being made to 10,626 permanently and totally disabled veterans.

During the calendar year 1940 awards were made to the beneficiaries of 2,774 deceased veterans, and 1,054 awards were made to veterans with permanent and total disabilities as compared with 2,636 and 1,258 respectively during the calendar year 1939.

An analysis of the principal plans of insurance on which death claims were paid during the calendar year 1940 shows that 26.84 percent of the policies were ordinary life, 25.06 percent were 20-payment life, 12.05 percent 20-year endowment, and 11.59 percent 5-year convertible term. Of the policies on which disability claims were paid during the same period, 32.84 percent were ordinary life, 19 percent 20-payment life, 11.65 percent 20-year endowment, and 18.30 percent 5-year convertible term.

*Claims (term and automatic).*—The disbursements for term and automatic insurance during this year totaled \$15,390,559.61 and to date \$2,162,392,039.28 which is \$1,707,894,927.45 in excess of the \$454,497,111.83 received in premiums. On June 30, 1941, monthly installments of term insurance were being paid to 10,205 permanently and totally disabled veterans and to the beneficiaries of 8,586 deceased veterans, as compared with 10,944 disability and 12,258 death awards on June 30, 1940. In addition to 8,586 death awards, 4 cases are being paid as annuities totaling \$140.92 monthly payments. The decrease in death awards during this year was due principally to the termination of cases by the payment of the last of 240 monthly installments.

During the year \$476,500 was paid on 114 compromise cases authorized under Public No. 78, Seventy-third Congress, June 16, 1933, of which 72 were disability and 42 death cases. To date, \$6,698,859 has been paid on 1,639 compromise cases authorized under this act, of which 1,170 were disability and 469 death cases. Permanent total disability payments averaging \$48.15 per month are being made on insurance valued at \$85,457,875. The States having the largest number of veterans receiving these payments are as follows: New York, 883; California, 877; Pennsylvania, 572; Illinois, 548; and Massachusetts, 415. An analysis of the disabilities for which term insurance is being paid discloses the fact that neuropsychiatric diseases are the disabling cause in 53.40 percent of the awards, general medical and surgical conditions in 25.79 percent, and tuberculosis in 20.81 percent. Awards of insurance to permanently and totally disabled veterans have been terminated in 30,274 cases. In 14.18 percent of these cases the reason for termination was recovery and in 81.95 percent the death of veteran.

Considering the terminations among veterans permanently and totally disabled because of tuberculosis, 12.98 percent recovered 85.47 percent died. In the neuropsychiatric group, 15.34 percent recovered and 73.05 percent died, while in the general medical and surgical group 16.70 percent recovered and 78.27 percent died.

It is noted that of the 8,586 death claims, payments were being made to 4,028 widows, 2,734 parents, 393 children and 1,431 other beneficiaries. The largest number of active death awards are in the following states: New York, 771; California, 757; Pennsylvania, 574; and Illinois, 481.

Payments of automatic insurance (provided for those who were permanently and totally disabled or who died within 120 days after entrance into service and before making application for term insurance) are being made to 240 permanently and totally disabled veterans of whom 180 or 75 percent are suffering from neuropsychiatric diseases; 30 or 12.50 percent from tuberculosis; and 30 or 12.50 percent from general medical and surgical conditions. In the case of 45 deceased veterans, this insurance is being paid to their beneficiaries, classified as follows: 24 parents, 16 widows and 5 children. During this fiscal year, 41 cases were terminated by the payment of the last of 240 installments.

#### NATIONAL SERVICE LIFE

The National Service Life Insurance was authorized by an act of Congress approved October 8, 1940, and identified as the National

Service Life Insurance Act of 1940 (Public No. 801, 76th Congress). A summary of this law was included on page 37 of the annual report for 1940. The authority for granting United States Government Life Insurance under Section 300 of the World War Veterans' Act, 1924 (38 U. S. C. 511) was specifically terminated by Section 611 of the National Service Life Insurance Act of 1940.

A new system of life insurance for persons on active duty with the land and naval forces (including the Coast Guard Service) and those thereafter entering on active duty, including persons selected for training and service under the Selective Training and Service Act of 1940, was established by the National Service Life Insurance Act. The insurance was available to those persons then on active duty, if in good health, upon application made within one hundred and twenty (120) days from the date of the approval of the Act (October 8, 1940). As to those persons who enter the service after that date, it is necessary that the application be made within one hundred and twenty (120) days from date of entry into the active service with the military and naval forces of the United States. The person must be serving under orders to active duty for a period of more than thirty days.

The insurance is payable only in the event of the death of the insured while the policy is in force. A beneficiary may be named by the insured if within the relationship to the insured of wife, husband, child (including an adopted child, stepchild, or illegitimate child), parent (including a person in loco parentis), brother or sister. At the death of the insured, if the beneficiary is under 30 years of age, the amount of insurance is payable to the beneficiary in two hundred and forty (240) equal monthly installments at the rate of \$5.51 per thousand of insurance. If at the death of the insured the beneficiary is thirty or more years of age, the amount of insurance is payable in equal monthly installments continuing during the remaining lifetime of the beneficiary. If such a beneficiary should not live to receive at least one hundred and twenty (120) of the equal monthly installments, the remaining installments (one hundred and twenty (120) less the number paid) will be paid as they become due to the contingent beneficiary, if one was named by the insured, otherwise to those persons within the permitted class of beneficiaries then surviving.

A special provision is made for waiver of the payment of premiums on the insurance during the total disability of the insured, if it commenced subsequent to the effective date of the insurance and has existed for 6 consecutive months or more prior to attainment by the insured of the age of 60 years. An application by the insured who has been so totally disabled will prevent a lapse of the insurance for the nonpayment of premiums and there will be no indebtedness created against the amount of the insurance.

All National Service Life Insurance is being issued in the first instance on the 5-year level premium term plan. After the insurance has been in force for 1 year on that plan, the insured may change to an ordinary life plan, a 20-payment life plan, or a 30-payment life plan at any time before the expiration of the 5-year term period. The premium rates on all plans of the National Service Life Insurance are the net rates based upon the American Experience Table of Mortality, and interest at the rate of three percent per annum. There is no charge in the premium for the cost of the special provision for the waiver of the payment of premiums while the insured is totally

disabled. The United States will bear the cost of administering the National Service Life Insurance and will also bear the cost resulting from excess mortality and the waiver of payment of premiums when death or disability is traceable to the extra hazards of the military and naval services.

The insurance will be granted to any one person in an amount of \$1,000 to \$10,000 in multiples of \$500. No person may carry a combined amount of National Service Life Insurance and United States Government Life Insurance in excess of \$10,000 at any one time.

An application for the National Service Life Insurance must be made in writing and accompanied by a remittance to pay at least the first monthly premium, or an authorization for deduction of monthly premiums from the applicant's service pay. The forms for making application for the new insurance have been made available to all persons serving with the military and naval forces. These forms include information regarding the benefits and privileges of the National Service Life Insurance, the premium rates, and instructions regarding the payment of premiums by the insured while in the active service. A special form has been provided for those persons who are required to submit a report of physical examination as a part of their application for insurance.

After the insured leaves the active service with the military or naval forces, the premiums on the insurance may be paid by direct remittance to the office of the Veterans' Administration in Washington, D. C. If the insurance should lapse for the nonpayment of the premium while the insured is in the active military or naval service, or thereafter, it may be reinstated upon application to the Veterans' Administration, if the applicant is in good health, and upon payment of the premiums with interest from the due date of each premium to the date of reinstatement.

*Applications.*—Applications for National Service Life Insurance approved during this fiscal year since enactment of the law, October 8, 1940, totaled 367,923, aggregating \$1,193,665,500. The first approval was made November 22, 1940.

*Policies issued.*—The following table shows the number and amount of policies issued by months through June 30, 1941.

Date	Number	Amount
1940		
November .....	1,209	\$10,114,500
December .....	4,762	22,656,000
1941		
January .....	8,809	38,739,000
February .....	19,858	74,285,500
March .....	34,546	106,887,000
April .....	64,551	192,056,500
May .....	114,807	354,002,500
June .....	119,381	394,924,500
Total .....	367,923	1,193,665,500

*Analysis by branch of service.*—The following table shows the number and amount, the percentage, and the average amounts of National Service Life Insurance policies issued to June 30, 1941, classified by branch of service.

Branch of service	To date		Percent of total		Average policy
	Number	Amount	Number	Amount	
Army.....	309,332	\$929,157,000	84.07	77.84	\$3,003.75
Navy.....	49,028	226,095,500	13.33	18.94	4,611.56
Marine Corps.....	7,941	32,377,500	2.16	2.71	4,077.26
Coast Guard.....	1,622	6,035,500	.44	.51	3,721.02
Total.....	367,923	1,193,665,500	100.00	100.00	3,244.34

*Claims.*—A total of 102 claims had been filed for the benefits of National Service Life Insurance to June 30, 1941, and awards had been made in 43 cases on insurance valued at \$237,500. In eight of these cases 240 monthly installments are to be paid on insurance having a face value of \$52,500 and in 35 cases life annuities on insurance with a face value of \$185,000.

#### CIVIL RELIEF

An act to promote and strengthen the national defense by suspending enforcement of certain civil liabilities of certain persons serving in the military and naval establishments, including the Coast Guard, was approved on October 17, 1940, (Public No. 861, 76th Congress). Article IV of the act provides that the Government will, on application by the insured, guarantee to commercial insurance companies premiums on insurance carried with such companies by persons on active duty in the military service of the United States.

Regulations governing the administration of article IV have been promulgated. A form on which the insured under a policy of life insurance may apply for benefits has been prescribed and a supply of the form has been made available to the military and naval establishments for use by persons in active service.

Through June 30, 1941, 10,135 applications for the insurance benefits of the act have been received, of which 6,718 representing \$20,015,076.02 insurance have been approved and 1,611 representing \$3,865,239.58 have been disapproved. Certificates issued to insurers guaranteeing premiums totaled 188, in an aggregate amount of \$163,239.56.

#### FINANCE

The actual net disbursements from appropriations and trust funds of the Veterans' Administration (including adjustment on lapsed appropriations) during this fiscal year were as follows:

Appropriations:	Disbursements
Salaries and expenses.....	\$99,406,748.86
Printing and binding.....	134,734.91
Hospital and domiciliary facilities and services, Veterans' Administration.....	3,425,168.22
Public Works Administration Act of 1938 (allotment to Veterans' Administration 1938-41).....	1,115,911.65
Army and Navy pensions and military and naval compensation.....	433,128,952.76
Military and naval insurance.....	15,390,559.61
Adjusted service and dependent pay.....	399,566.38
Vocational rehabilitation.....	<sup>1</sup> 3,646.83
Military and naval family allowance.....	<sup>1</sup> 1,390.18
Miscellaneous.....	16,310.07

<sup>1</sup> Credit.

## Trust funds:

U. S. Government life insurance fund.....	<sup>2</sup> \$55, 826, 658. 44
National Service life insurance.....	7, 055. 28
Adjusted service certificates.....	2, 656, 735. 71
Army allotments.....	25. 00
General post fund.....	37, 903. 71
Funds due incompetent beneficiaries.....	350, 275. 79
Personal funds of patients, Veterans' Administration.....	2, 465, 841. 86

Total.....	\$614, 357, 411. 24
------------	---------------------

<sup>2</sup> Includes encumbrances.

The amount shown for the appropriation, "Salaries and expenses," includes net disbursements of \$1,320,501.22 from allotments made to other Government agencies for the care and treatment of Veterans' Administration beneficiaries.

## SUPPLY ACTIVITIES

During this year there was obligated out of the appropriation "Salaries and Expenses," for subsistence supplies the amount of \$10,338,430, for expendable supplies (other than subsistence) \$6,083,758, and for nonexpendable supplies (equipment) \$1,540,247. The obligations for expendable supplies (including subsistence) amounted to 16.45 percent of the total obligations from the appropriation "Salaries and Expenses," while obligations for nonexpendable supplies amounted to 1.54 percent.

During this year there were received 17,182 requisitions for supplies and equipment. The handling of these requisitions required the soliciting of bids from 71,450 prospective bidders, execution of 4,105 contracts, the issuance of 19,022 purchase orders, 6,699 letters of authority to purchase, and 2,460 shipping orders on the Supply Depots. There were handled 2,182 contracts for services, such as hospitalization in other than Government facilities, burial, electricity, gas, water, etc.

There were in operation at our facilities 93 concessions, such as stores, restaurants, barber shops, etc., from which there was realized as rental the sum of \$103,412.04, which was covered into miscellaneous receipts, Treasury Department.

While the effect of the national defense program was not felt to any appreciable extent in the procurement of materials, supplies and equipment, during this year, there is every indication that commodities required in the future will be more difficult to procure, and that there will be material increases in costs.

## LEGAL ACTIVITIES

## LEGISLATION

During that part of the third session of the Seventy-sixth Congress after June 30, 1940, and that part of the first session of the Seventy-seventh Congress, within the fiscal year ending June 30, 1941, there were 1,759 bills introduced pertaining to veterans' benefits, many of which had for their purpose material changes in existing laws affecting veterans' relief. Of these, 979 were general bills and 780 were for private relief. For the fiscal year there were 292 official reports furnished committees, Members of Congress, the Bureau of the Budget,

and the President on proposed legislation. In addition to these reports there were 1,626 miscellaneous letters and memoranda prepared concerning legislative matters. There were 110 separate drafts of proposed legislation prepared for committees and Members of Congress. There were 340 digests prepared on pending bills, including a chronology of the legislative action taken thereon. Two hundred and seventy-seven committee reports and 44 documents became a part of the legislative history during the fiscal year. One hundred and twenty-two studies were conducted during the fiscal year on legislative problems and proposals affecting the Veterans' Administration.

All laws enacted during the third session of the Seventy-sixth Congress after June 30, 1940, were reported in digest form on pages 34-44 of the 1940 report. The following statement embraces laws enacted during the first session of the Seventy-seventh Congress to the time of preparation of this report.

*New legislation.*—Public, No. 28, Seventy-seventh Congress, April 5, 1941, provides a total appropriation for the Veterans' Administration of \$608,693,162, made up of the following items: \$104,726,912 for various administrative expenses, including repairs, alterations, or improvements of existing facilities, and for recreational articles and facilities at institutions maintained by the Veterans' Administration, expenses incidental to securing employment for war veterans, and for funeral, burial and other expenses incidental thereto for beneficiaries of the Veterans' Administration; \$144,250 for printing and binding; \$453,597,000 for compensation and pensions, gratuities and allowances, including emergency officers' retirement pay; \$16,240,000 for military and naval insurance; \$485,000 for payment of adjusted service credits of not more than \$50 each, and quarterly installments due dependents of deceased veterans, as provided by the Act of May 19, 1924, as amended; \$10,000,000 for adjusted compensation payments; \$20,000,000 for transfer to the National Service Life Insurance Fund, in accordance with the provisions of the National Service Life Insurance Act of 1940; \$3,500,000 for hospital and domiciliary facilities. It authorizes purchase of printed reduced fare requests for use by veterans traveling at their own expense from or to Veterans' Administration facilities, such purchases to be from sources authorized by the common carriers. No part of the appropriation may be used for hospitalization or examination of persons except beneficiaries entitled under the laws bestowing such benefits to veterans, unless reimbursement of cost is made to the appropriation at such rates as may be fixed by the Administrator of Veterans' Affairs.

Public, No. 35, Seventy-seventh Congress, April 11, 1941, relieves disbursing officers, certifying officers, and payees in respect of certain payments made in contravention of appropriation restrictions regarding citizenship status.

Public, No. 73, Seventy-seventh Congress, May 24, 1941, making appropriations to supply deficiencies in appropriations for the fiscal year ending June 30, 1941, as to the Veterans' Administration, provides \$30,000 for printing and binding, and \$1,000,000 for hospital and domiciliary facilities.

Public, No. 97, Seventy-seventh Congress, June 3, 1941, provides in section 5 thereof for aviation cadets, Air corps of the Army, Government life insurance, in the amount of \$10,000, premiums on which are paid by the Government. Upon being commissioned as Second

Lieutenants, Air Corps Reserve, these men have the option of continuing such policies at their own expense. These provisions are similar to those contained in section 5 of the Act of April 15, 1935, as amended by Public, No. 129, Seventy-sixth Congress, June 13, 1939, relating to naval and marine corps aviation cadets.

Public, No. 99, Seventy-seventh Congress, June 3, 1941, provides that enlisted men of the Army detailed as aviation students who are undergoing a course of instruction which requires them to participate regularly and frequently in aerial flights shall be issued Government life insurance in the amount of \$10,000 under the National Service Life Insurance Act of 1940, and that the premiums shall be paid by the Government during the period such men are undergoing training and instruction, and upon completion of training and instruction as aviation students they shall have the option of continuing such policies at their own expense.

Public, No. 122, Seventy-seventh Congress, June 21, 1941, authorizes and directs the Administrator of Veterans' Affairs to transfer by quit claim deed title in certain lands of Veterans' Administration facility, Dayton, Ohio, to the County of Montgomery, State of Ohio, for highway widening purposes.

Public, No. 123, Seventy-seventh Congress, June 21, 1941, authorizes and directs the Administrator of Veterans' Affairs, in consideration of \$100, to transfer by quit claim deed to the Norfolk and Western Railway Company a small piece of land (2/10 of an acre) at Veterans' Administration facility, Roanoke, Virginia.

Public, No. 130, Seventy-seventh Congress, June 24, 1941, authorizes the Comptroller General of the United States, the Secretary of the Treasury, the Treasurer of the United States, and the Postmaster General, to adjust certain losses occurring in the redemption of adjusted service bonds in those cases where it shall be jointly determined by the Postmaster General and the Secretary of the Treasury that the misdelivery and erroneous payments involved occurred without negligence upon the part of the postmaster or postal employee charged with the error.

Public, No. 140, Seventy-seventh Congress, June 30, 1941, provides for the discharge or retirement of enlisted men of the Regular Army and of the Philippine Scouts in certain cases. Section 2 of the Act provides that an enlisted man of the Regular Army or the Philippine Scouts who has served 20 years or more in the military forces of the United States and who has become permanently incapacitated for active service due to physical disability incurred in line of duty shall be placed on the retired list. Section 3 provides that when an enlisted man is placed on the retired list pursuant to the provisions of Section 2, he shall receive 75 per centum of the average pay he was receiving for six months prior to his retirement, plus a money allowance of \$9.50 per month in lieu of rations and clothing, and \$6.25 per month in lieu of quarters, fuel and light, however, the money allowances of enlisted men of the Philippine Scouts placed on the retired list under this Act shall be the same as those heretofore or hereafter prescribed by the Secretary of War under existing law for enlisted men of that organization retired after 30 years' service.

This Act is of importance to the Veterans' Administration by reason of the provisions of section 4, which permits the retired enlisted man to waive the retired pay and allowances for the purpose of receiving

pension or compensation and, thereafter, he may waive receipt of pension or compensation for the purpose of receiving retired pay and allowances.

Public, No. 143, Seventy-seventh Congress, July 1, 1941, continued for one month the provisions of section 15 (a) of the Emergency Relief Appropriation Act, fiscal year 1941, and effective August 1, 1941, section 10 of the Act continues the provision for preference in Works Progress Administration employment for veterans of the World War, Spanish-American War, and veterans of any campaign or expedition. The preference includes unmarried widows of any such veterans and the wives of any such veterans who are unemployable and who have been certified as in need of employment. A proviso was added to this section so as to permit employment of the veteran, unmarried widow or wife, notwithstanding other income, provided that the income of the veteran or the unremarried widow, or the combined income of an unemployable veteran and his wife is less than the monthly earnings of the veteran, widow or wife would receive if employed by the Works Progress Administration. The worker will be entitled to employment which will produce sufficient enhancement of the outside income to be equal to the wages otherwise payable.

Preference is also provided in this section for veterans, unmarried widows of veterans and wives of unemployable veterans by excepting them from the provision requiring removal from Works Progress Administration projects where the worker has been continuously employed by such projects more than 18 months.

Public, No. 150, Seventy-seventh Congress, July 3, 1941, appropriates \$2,709.12 for payment of judgments and authorized claims affecting the Veterans' Administration.

Public, No. 182, Seventy-seventh Congress, July 18, 1941, provides pension and other benefits administered by the Veterans' Administration to veterans and dependents of veterans who served as officers and enlisted men in the United States Coast Guard for disability resulting from injury or disease contracted or suffered in line of duty in active service in the Coast Guard on or after January 28, 1915, and before July 2, 1930, and for death resulting from such injury or disease. These benefits are provided in the same manner and under the same regulations and restrictions as provided by law for officers and enlisted men in the Coast Guard who incurred disability in line of duty on and after July 2, 1930, or who died as the result of such disability. The benefits of this Act are not payable for any period prior to the date of enactment of the new Act.

Public, No. 193, Seventy-seventh Congress, July 30, 1941, establishes a uniform provision governing the payment of pension or compensation to a dependent mother or father under the laws administered by the Veterans' Administration. Under this Act pension or compensation otherwise payable shall continue during dependency, whether dependency arises prior or subsequent to the death of the veteran and the fact of remarriage of the mother or father shall not operate to terminate such pension, provided that dependency exists notwithstanding such remarriage.

Public, No. 196, Seventy-seventh Congress, July 30, 1941, further amends the Act of February 9, 1927, entitled "An Act relating to the transfusion of blood by members of the Military Establishment" (U.S.C., title 24, sec. 30), as amended June 2, 1939, (Public, No. 109,

Seventy-sixth Congress), primarily to provide compensation for donors of blood for persons entitled to treatment at Government expense whether or not the donors are in the Government service.

Public, No. 213 (Senate Joint Res. 95), Seventy-seventh Congress, August 18, 1941, extending the periods of service of persons in the military service provides in section 3 that any person whose period of active military service or training and service is extended under section 2 of the Act and who was (a) ordered to active Federal service under Public Resolution Numbered 96, Seventy-sixth Congress, or (b) inducted under the Selective Training and Service Act of 1940, as amended, prior to the enactment of the Act, shall, notwithstanding the limitation in section 602 (a) of the National Service Life Insurance Act of 1940 upon the time within which application for National Service Life Insurance may be made, be granted insurance under such section without further medical examination if application therefor is filed within 120 days after the date of enactment of the Act.

Public, No. 242, Seventy-seventh Congress, August 21, 1941, makes the highest rates of World War death compensation, service connection of death required, payable as death pension to the dependents of veterans of the Spanish-American War, including the Philippine Insurrection and the Boxer Rebellion, entitled to death pension under Veterans Regulation No. 1 (a), part I, as amended. The same rates are made available to the dependents of veterans entitled to death pension at wartime rates where the veteran's death resulted from an injury received in line of duty in actual combat in a military expedition or military occupation. The rates made applicable to these groups are contained in section 5 of the Act of July 19, 1939, Public, No. 198, Seventy-sixth Congress (U.S.C. title 38, sec. 472b). The limitation contained in the last sentence of the second paragraph of said section 5, amended as hereinafter explained, is for application.

Section 2 of this Act amends the last sentence of the second paragraph of section 5, Public, No. 198, Seventy-sixth Congress, to read as follows:

"The amount of compensation herein authorized shall be paid in the event the monthly payment of compensation under Veterans Regulation Numbered 1 (g), and the monthly payment of yearly renewable term or automatic insurance, or national service life insurance does not aggregate or exceed the amount of compensation herein authorized: *Provided*, That persons entitled to pension or compensation on account of the death, disability, or service of more than one person, if otherwise entitled, shall be paid the increased rates provided by this section."

#### INTERPRETATIVE LAW

During this year approximately 1,180 formal and precedent opinions were rendered covering all phases of the various laws granting benefits to veterans and their dependents and the laws governing administrative activities embracing contracts, property, fiscal matters, personnel, etc. In addition, 5,517 communications on legal matters in memorandum or letter form were prepared.

In passing upon applications of admission to practice before the Administration, it is shown by the records that during the fiscal year 1941 the following matters were completed: 330 applications of attorneys were approved and 23 denied; 1 application of agents was approved and 5 denied.

*Civil litigation.*—Forty-two suits not under section 19 were disposed of as follows: 13 Court of Claims suits—6 suits filed in the Court of Claims for balance due on contract, judgment for defendant; 4 suits filed in the Court of Claims for extra costs incurred, 2 judgment for defendant, 2 judgment for plaintiff; 2 suits filed in the Court of Claims to recover salary while employed by Government, 1 judgments for defendant, 1 judgment for plaintiff; 1 suit filed in the Court of Claims to compel payment of compensation, judgment for defendant; 22 mandamus suits—6 suits to compel payment of insurance, 5 judgment for defendant, 1 dismissed; 3 suits to compel payment of Adjusted Service Certificate, dismissed; 1 suit to compel payment of insurance and compensation, dismissed; 1 suit to compel Administrator to issue Government life insurance converted policy, dismissed; 6 suits to compel payment of compensation, 4 judgment for defendant, 1 dismissed, 1 dismissed with prejudice; 2 suits to recover proceeds of adjusted service certificate, judgment for defendant; 1 suit by Administrator of pensioner's estate for an accounting and settlement of estate, dismissed; 2 suits against United States for alleged breach of contract, judgment for defendant; 2 recovery suits—1 suit by United States to recover overpayment of compensation benefits, judgment for United States; 1 suit by United States to recover adjusted service certificate erroneously issued to veteran (certificate returned to Veterans' Administration), dismissed; 4 recovery—Post Fund Cases—4 suits to recover pension deposited in Post Fund, 3 judgment for plaintiff, 1 judgment for defendant; 1 suit on contract—against United States to recover damages under contract, case compromised.

*Criminal Prosecution.*—In addition to directing investigations through field offices, the Veterans' Administration cooperates with the several investigating agencies of the Government in developing the facts concerning possible violations of law. The evidence in cases developed solely by the Veterans' Administration is submitted to the Department of Justice with a brief of the facts and law for the consideration of the appropriate United States attorney. Cases developed in cooperation with the Federal Bureau of Investigation of the Department of Justice or the Secret Service Division of the Treasury Department are by those agencies submitted to the appropriate United States attorneys. The Veterans' Administration however, cooperates with the United States attorneys in the further handling of the cases upon request of the Department of Justice.

When requested by the Department of Justice, the Veterans' Administration prepares tentative forms of indictments covering offenses committed in connection with Veterans' Administration activities and cooperates in making a research of the laws. The major portion of the offenses involved are covered by penal provisions within the several acts administered by the Veterans' Administration; but where these statutes do not cover a particular offense, the case is prepared under the appropriate provision of the Federal Criminal Code or other applicable Federal penal statute.

There were pending in the Veterans' Administration on June 29, 1940, 140 cases which were in the course of consideration and investigation. During the fiscal year 400 complaints of violations of laws were received, considered, and investigated, which, with the number on hand made a total of 540 cases. One hundred and thirty-seven of

these cases were submitted to the Department of Justice for consideration of United States attorneys and 244 were closed without reference to the Department of Justice on account of the lack of evidence, expiration of the period of the statute of limitations, and so forth. A total of 159 cases remained in the course of investigation on June 30, 1941.

There were pending in the Department of Justice on June 29, 1940, a total of 157 cases. There were submitted during the fiscal year 137 cases, making a total of 294 cases. Of these 152 were disposed of by the Department of Justice, leaving a balance on June 30, 1941, of 142 cases.

The 152 cases were disposed of as follows:

Acquittals.....	5
No bills.....	18
Convictions.....	60
Closed by Department of Justice.....	54
Nolle prosequi.....	10
Defendant died.....	4
Filed away with leave to reinstate.....	1

In explanation it may be stated that the 54 cases closed by the Department of Justice were cases wherein it was believed that, on account of mitigating circumstances, a successful prosecution would not be obtained. Nevertheless, there having been a prima facie showing of guilt, the Veterans' Administration took the position that the proper enforcement branch of the Government should consider the evidence.

#### GUARDIANSHIP

During the fiscal year ending June 30, 1941, there was no Federal legislation directly affecting the guardianship program. In some of the States legislation was enacted with more specific provisions respecting trust investments, commitments to Veterans' Administration facilities, etc. The State of Rhode Island enacted in its entirety the Uniform Veterans Guardianship Act.

The number of beneficiaries under guardianship decreased from 83,776 on June 30, 1940, to 83,439 on June 30, 1941. Minors decreased from 40,284 to 39,963 and incompetents decreased from 43,492 to 43,476.

These beneficiaries' estates received during the year a total of \$41,503,242.63 through payments and earnings, approximately \$635,000 more than in the preceding fiscal year. The total of such estates, including cash balances and investments, amounted to \$159,370,982.23. Illegal investments decreased to \$155,995.88.

Losses were reported as follows:

Embezzled or misappropriated.....	\$105,274.17
Lost on deposits.....	31,323.21
Lost on investments.....	156,973.02
Recoveries and savings for beneficiaries by chief attorneys' offices:	
Of amounts embezzled or misappropriated.....	109,837.88
On investments and expenditures.....	451,290.25
On commissions.....	14,571.48
On fees.....	6,805.81
On contemplated investments and expenditures prevented.....	199,875.85
Legal services rendered.....	391,624.15
Total recoveries and savings.....	1,174,005.42

Actual cash collections for beneficiaries totaled \$430,008.25 and for the Government-escheated funds and repayments \$50,074.61.

Court appearances were made in 13,612 cases. Very few guardianship cases were disposed of in appellate courts during the year, of which the following 4 were considered outstanding.

In Michigan approval of annual accounts of guardian in which certain fees for services were shown is not *res judicata* as to guardian's claim, later asserted, for special services during periods covered by such accounts. Amount is discretionary with circuit court which on trial *de novo* reduced amounts allowed by probate court. *In re Horn Estates*, 295 Mich. 193, 294 N. W. 150.

In Missouri disputed claims accruing against insane person after adjudication of insanity cannot be adjudicated by probate court but must be sued on in circuit court. *In re Moore's Guardianship*, 148 S. W. (2d) 116.

In Alabama where incompetent had guardian at all times limitations bar recovery by incompetent against third persons for conversion of funds where no bad faith on the part of the guardian is shown. *Spann v. First National Bank of Montgomery*, 200 So. 554.

The Supreme Court of Alabama, in *Cox v. Williams*, 3 So. (2d) 129, reversed the trial court and held a successor guardian and his sureties liable for the amount of a judgment recovered against the first guardian, but which the successor guardian failed to collect, and further held the successor guardian liable for interest as for money in his hands uninvested equal to the amount of the uncollected judgment from date of entry. The evidence affirmatively indicated that if diligence had been used the judgment probably could have been collected. The court further stated that there was a presumption that the sureties on the guardian's bond were good in that it was the duty of the Probate Judge to see that they were good and it would be presumed that official performed his duty. The successor guardian alleged in his defense that he had employed an attorney and if there was any negligence it was the negligence of the attorney for which he, the client, was not liable since he used diligence in selecting the attorney. This was rejected, the court holding that the neglect was in failing to have the judgment recorded within the statutory period so that it would constitute a lien on the judgment debtor's realty and that the fact that the negligence was the negligence of the attorney did not relieve the client (guardian).

Six of the eight remaining cases against National Surety Co. in liquidation mentioned on page 48 of the 1940 Report have now been closed. In two (from Oregon and Tennessee) the court allowed the claims. In four (from Virginia and Ohio) the court denied them because the laws of those two States were held to be the same as Michigan, and hence controlled by the Southern Surety Co. decision in New York, 12 N. E. 565. The test case from Ohio was affirmed on appeal, 20 N. Y. S. (2d) 664, and the Court of Appeals refused a review, 21 N. Y. S. (2d) 395. Two claims aggregating about \$12,000 are still pending and probably will be allowed.

#### APPEALS

During this fiscal year appellate decisions were rendered in 19,713 cases, involving 34,223 issues, the ratio of decisions to appellants

being 1.74. During the same period, 969 cases were remanded for further development of the evidence by agencies of original jurisdiction.

At the close of this fiscal year appeals were pending in 11,354 cases. This represents an increase of 1,063 over the number of cases pending June 30, 1940. Of the cases in pending appellate status 3,866 were physically before the Board of Veterans' Appeals, 3,459 had been certified as ready for appellate consideration and were awaiting recall at such time as they were reached on the docket, 3,774 were pending development of the evidence and certification by the agencies of original jurisdiction, and 255 were pending for other reasons.

Of the 3,866 cases physically before the Board of Veterans' Appeals, formal hearings were pending in 1,343. During the year formal recorded hearings were held in 6,488 cases.

Benefits to veterans of all wars, except the Mexican War, and their dependents, as well as veterans of the Regular Establishment and their dependents under the various laws administered by the Veterans' Administration, were involved in the cases receiving appellate consideration. For an analysis by wars and kind of claim, see table 52.

### PERSONNEL

In September, 1940, the Veterans' Administration was identified as a defense agency, thereby enabling it to operate under Civil Service rules and regulations promulgated for such agencies. This has expedited Government business and accelerated the consummation of personnel transactions. At the same time, it has afforded protection in employment matters such as in retaining the services of employees desiring transfer to other agencies, although it has not been the policy of this Administration to interfere with employees improving their status by transfer elsewhere.

Even though classed as a defense agency, the Veterans' Administration has not requested deferment of employees called for military training or for active duty in the Reserve Corps of the Army or Navy. In the cases of employees entering military service, their names are continued on the rolls as nonactive employees, replacements being assigned only on a temporary basis in order that former employees may resume the positions occupied at the time of reporting for military or naval duty, or similar positions, provided request for restoration is made within a period of 40 days from date of separation from military or naval service, as provided by law.

The Division of Personnel Relations, Training, and Placement, Office of Personnel, is working toward the general objective of centralizing personnel work in the matter of approving major policies, standards, and procedures; of developing programs relating to personnel relations, training, placement, safety, and health.

In making new appointments and in effecting discontinuances, the policy of extending preference to those entitled to military preference has been followed carefully. The same is true in filling vacancies in higher grades, and in staff positions. At the close of this year, 60.21 percent of the male, and 11.11 percent of the female employees on the rolls were ex-service, while 44.18 percent of the total personnel had such status.

During this year, the Veterans' Administration instigated a more thorough and systematic observation of employees during proba-

tionary period by requiring periodic efficiency reports to evaluate the employee's service.

In line with its policy to afford relief to employees from charges for allowances (quarters, subsistence, and laundry), the Veterans' Administration has continued its study and effort to improve general policies in this respect. During the year the percentage of employees in certain grades, who are required to occupy quarters on the station, was reduced from 40 to 30 per cent.

The following itemization shows the net increase in the number of positions authorized and the net increased expenditures for salaries during the fiscal year 1941:

Activity	Fiscal year 1940		Fiscal year 1941		Net increase + or decrease -	
	Authorized positions	Net annual salaries	Authorized positions	Net annual salaries	Authorized positions	Net annual salaries
Central office.....	4,998	\$10,053,053	6,384	\$10,540,837	+1,386	+\$487,784
Field.....	37,371	47,743,898	39,079	51,887,008	+1,708	+4,143,110
Total.....	42,369	57,796,951	45,463	62,427,845	+3,094	+4,630,894

Practically all of the above recorded increase in Central Office was due to the additional personnel placed on duty to carry out the provisions of Public, 801, 76th Congress, National Service Life Insurance Act of 1940, while the net increase shown for the field service was caused by the operation of additional hospital and domiciliary facilities, the number of hospital beds having increased 2,212 and the domiciliary beds 250 during this year.

There were 117 veterans who took advantage of an agreement between the Veterans' Administration and the United States Civil Service Commission whereby disabled veterans hospitalized or domiciled in Veterans' Administration facilities could receive the necessary training to become qualified for civil service examinations given for the positions of telephone operator and elevator operator.

<sup>1</sup> From 1925 through 1930—veterans remaining who were admitted under authority of sec. 202-10, World War Veterans' Act, 1924. From 1931 through 1933—veterans remaining who were admitted under authority of sec. 202-10; under laws governing admissions to national homes; and examinations or observations for insurance, compensation, and disability allowance. From 1934—veterans remaining for treatment of disabilities classi-

fied as non-service-connected according to act of Mar. 20, 1933; also included with non-service are veterans remaining for emergency, observation or examination for insurance, pension, or compensation, and observation or examination for diagnosis.

NOTE.—Veterans in United States possessions not included prior to 1927.

TABLE 12.—*Domiciliary and hospital discharges of United States veterans, showing results of hospital treatment and type of patient, fiscal year 1941*

## FINANCE TABLES

TABLE 41.—*Analysis of reported obligations from all appropriations by purpose, fiscal year 1941*

Personal services:	
Salaries.....	\$62,570,493
Special and miscellaneous payments.....	1,748,170
Supplies and materials:	
Stationery and office supplies.....	278,206
Cleaning and toilet supplies.....	472,657
Drugs and medicines.....	973,849
Hospital and surgical supplies.....	373,687
X-ray supplies and films.....	242,990
Dental supplies.....	94,997
Orthopedic and prosthetic supplies.....	409,621
Occupational therapy supplies.....	81,331
Fuel.....	1,311,590
Purchase of clothing for veterans (veterans' regulation 6 (c)).....	928,998
Purchase of clothing for employees.....	99,543
Other wearing apparel and sewing supplies.....	159,144
Forage and other supplies for animals.....	94,371
Provisions.....	10,338,430
Sundry supplies.....	486,790
Motor vehicle supplies.....	75,984

TABLE 41.—*Analysis of reported obligations from all appropriations by purpose, fiscal year 1941—Continued*

Communication service:	
Telegraph service.....	\$37, 022
Telephone service.....	210, 837
Other communication service.....	44, 878
Travel expenses:	
Transportation.....	1, 114, 521
Subsistence and lodging.....	256, 480
Transportation of things.....	920, 085
Printing and binding, engraving, lithographing, photographing, and typewriting (service) (job work), printing and binding.....	149, 046
Furnishing of heat, light, power, etc.....	1, 996, 110
Rents.....	313, 533
Repairs and alterations.....	2, 714, 236
Special and miscellaneous current expenses.....	433, 264
Pensions, retirement salaries, annuities, World War allowances and insurance losses:	
Military and naval compensation for death and disability (World War total).....	262, 023, 126
Other World War allowances (adjusted compensation).....	3, 056, 301
Army and Navy pensions (other wars and peacetime).....	171, 298, 581
Military and naval insurance.....	15, 797, 152
Grants, subsidies, and contributions:	
Burials.....	4, 270, 517
Reimbursement to States for veterans in State homes.....	1, 431, 840
Equipment:

## Purpose:

Civil-service retirement and disability fund, annuities, and refunds to Aug. 31, 1934	Disbursements
Canal Zone retirement and disability fund, annuities, and refunds to Aug. 31, 1934	\$249,620,791.07
	1,153,146.76
Disbursements by Bureau of Pensions:	
Army and Navy pensions, 1790 to June 30, 1931	8,169,801,911.88
Maintenance and expenses	151,212,728.16
Total	8,321,014,640.04
Disbursements by National Home for Disabled Volunteer Soldiers, 1867 to June 30, 1931	287,169,044.24

<sup>1</sup> Credit.<sup>2</sup> Premiums refunded in amount of \$474,357.67 paid from fiscal-year appropriations have not been deducted from this figure.<sup>3</sup> A available balance transferred from Interior Department.<sup>4</sup> A available balance June 30, 1931.<sup>5</sup> Includes encumbrances, but not investments and loans.<sup>6</sup> This amount represents payments made on adjusted-service certificates and amounts reimbursed to the U. S. Government life-insurance fund on account of loans made from that fund on certificates, under the provisions of the World War Adjusted Compensation Act, as amended, and the Adjusted Compensation Payment Act, 1936.<sup>7</sup> Net expenditures; investments not included.<sup>8</sup> Disbursed from July 1, 1935, to date.

TABLE 43.—Disbursements made by Veterans' Administration, former Veterans' Bureau, National Home for Disabled Volunteer Soldiers, and Pension Bureau, for all wars and Regular Establishment, and annuities and refunds to civil employees under civil service and Canal Zone Retirement Acts

1918 and prior years		108,240,494.84	26,565,511.38					

<sup>1</sup> Includes revolving fund loans outstanding June 30, 1941 \*\$1,927.03.

<sup>2</sup> Salaries and expenses include increase of compensation, printing and binding, administrative expenses, adjusted compensation and administrative expenses, Adjusted Compensation Payment Act, 1936. Medical, hospital, and domiciliary services are included from June 30, 1931, to date and State and Territorial homes for the fiscal years 1934-1941.

<sup>3</sup> Disbursed from appropriations for previous years.

<sup>4</sup> Includes construction.

<sup>5</sup> Disbursements from general post fund from June 30, 1931, to date.

<sup>6</sup> Gross disbursements for Army and Navy pensions.

<sup>7</sup> Includes unclassified \$4,978.13.

<sup>8</sup> In the early fiscal years, disbursements were made from military and naval compensation appropriations for accrued awards, transportation, travel, burial awards, hospital services, etc. Disbursements for disability compensation include approximately \$10,360,600 for these items.

<sup>9</sup> Includes encumbrances.

<sup>10</sup> This amount represents payments made on adjusted-service certificates and amounts reimbursed to the United States Government life insurance fund on account of loans made from that fund on certificates under the provisions of the World War Adjusted Compensation Act as amended, and the Adjusted Compensation Payment Act, 1936.

\*Credit.

NOTE.—The total amount disbursed from insurance premiums, allotments deducted from pay of World War veterans while in service, etc., \$1,309,992,076.54.

<sup>1</sup> Includes 2 special-act cases.

<sup>2</sup> Includes 5 provisional, probationary, or temporary officers.

<sup>3</sup> District of Columbia and central office excluding hospitalization by Army, Navy, and Public Health hospitals located in the States.

NOTE.—Administration includes all expenditures incident to the maintenance and

operation of all hospitals, all forms of medical, hospital, and domiciliary care. The expenditure of \$61,370,769 (U. S. Government life-insurance fund, National Service life insurance, adjusted service certificate fund, funds due incompetent veterans, personal funds of patients, general post fund and miscellaneous) is not included in above figures.

TABLE 45.—An approximate distribution of expenditures by United States possessions and foreign countries during the fiscal year 1941, showing number of beneficiaries as of June 30, 1941

United States possessions and foreign countries	Number of living veterans or deceased veterans whose dependents were receiving pension benefits (including compensation and emergency officers' retirement pay) on June 30, 1941, and disbursements for these benefits during the fiscal year 1941

TABLE 46.—Summary of policy loans for fiscal year 1941, U. S. Government life-insurance fund

Total amount of policy loans issued to date.....	\$1,461,873,966.50
Outstanding policy loans July 1, 1940.....	150,159,944.58
New loans issued during fiscal year including renewal of old loans.....	\$131,605,863.34
Less:	
Repayments in cash.....	\$7,843,155.89
Repayments by deduction:	
(a) From new loans.....	\$111,057,617.30
(b) From surrenders.....	5,208,089.75
(c) From claims.....	1,468,932.24
(d) From dividend payments and deposits.....	17,811.98
(e) From matured endowments.....	5,038,122.81
Total collections by deduction.....	122,790,574.08
Total repayments.....	130,633,729.97
Net increase in outstanding loans.....	972,133.37
Outstanding policy loans June 30, 1941.....	151,132,077.95

TABLE 47.—Financial statement of the U. S. Government life-insurance fund
